

Luc Pinard

Executive Vice-President and Chief Technology and Quality Officer

Luc Pinard joined CGI in 1978 and is currently Executive Vice-President and Chief Technology and Quality Officer. As such, he is responsible for developing a coordinated approach to enable CGI to be at the forefront of information and communication technologies (ICT) and to stimulate intellectual property (IP) creation and exploitation.

Mr. Pinard is responsible for managing the company's portfolio of IP assets, enterprise systems and ICT infrastructure. Moreover, he also assumes the overall responsibility for CGI's Management Foundation including Quality and Methodologies, Engagement Assessment Services, Business Continuity Planning and Operation Methods and Procedures (best practices).

Prior to this position, as President, European operations, he was responsible for the provision of end-to-end IT services in the areas of consulting, systems integration and the management of IT functions to clients in Europe.

Mr. Pinard has accumulated close to 30 years of experience as an information technology professional, consultant, project manager and a consulting firm executive. He has held several management positions as engagement and business development manager, corporate planning and development and as business unit leader.

CGI profile

At CGI, we are in the business of satisfying clients. For more than 30 years, we have operated upon the principles of sharing in clients' challenges and delivering quality services to address them.

A leading IT and business process services provider, CGI operates in 100+ offices worldwide, giving us the competitive advantage of close proximity to our clients. Through these offices, we offer local partnerships and a balanced blend of global delivery options to ensure clients receive the combination of value and expertise they require.

CGI defines success by exceeding clients' expectations and helping them achieve superior performance.
