

_experience the commitment

Our Oracle services

Corporate profile

CGI is one of the largest independent information technology (IT) and business process services firms in North America. CGI couples extensive industry sector expertise with a full range of services, including strategic IT and management consulting, systems integration, and management of IT and business functions.

As an Oracle Certified Advantage Partner, CGI is one of an exclusive group of companies offering specialized services in Oracle technology and the E-Business Suite of applications.

We at CGI are committed to helping you achieve your business objectives through our development of solutions aimed at providing you with the highest possible performance. To achieve this we take a partnership approach, which allows us to adapt to your specific needs.

Experience our winning team

Benefit from the strength of the CGI team to realize your business application objectives: reduced operating costs, improved management processes and immediate access to complete, integrated data.

CGI's Oracle consulting team offers extensive expertise in the planning, development, implementation, operation, maintenance and continuous improvement of your Oracle custom developed or packaged applications. Our specialists can provide you with a wide range of Oracle services, including:

- Implementation of all Oracle applications:
 - E-Business Suite
 - Collaboration Suite
 - Database management
 - Development tools
 - Applications server
 - Business intelligence
- Planning and custom development of Oracle applications;
- Outsourcing (data center hosting, DBA monitoring, application support and evolution);
- Oracle technology and application upgrades.

Our Oracle implementation and integration project team brings together our exclusive ISO 9001-certified project management framework with Oracle's AIM or CDM methodologies. These proven methodologies ensure that the analysis and reengineering activities involved in the implementation are of the highest quality. CGI will pay particular attention to the change management process associated with the implementation of your solution. Our experienced professionals will guide you towards the achievement of your business objectives while fully respecting your budget and timetable.

A preferred partner

CGI combines one of the largest Oracle centers of expertise in Canada with a team of seasoned professionals who thoroughly understand the issues surrounding your industry and who are committed to satisfying your specific needs. CGI has created customized Oracle solutions in the following sectors: government, telecommunications, banking, insurance, manufacturing, retail and distribution.

We focus on providing effective business solutions that address your areas of concern, are aligned with best practices in your industry and adhere to the highest performance standards.

CGI's depth of expertise with systems operation and integration supports the Oracle service offering. Our vision extends beyond Oracle technology. In fact, we draw on our in-depth knowledge of systems engineering, design, development and implementation to ensure that your Oracle solution operates flawlessly. In selecting CGI as your Oracle partner, you will benefit fully from all of the advantages our competitive strength has to offer:

- A single source to develop, implement and support your Oracle applications;
- Leading-edge expertise in Oracle technology;
- Solutions adapted to your organization;
- A client-oriented approach;
- Extensive experience with large-scale projects;
- In-depth understanding of your industry; and,
- Access to global market.

A business partnership with CGI encompasses more than a successful Oracle implementation. We offer a complete range of services, including applications hosting as well as technical and application software support on a 24/7 basis. You can depend on CGI to ensure your investment in Oracle is a complete success.

CGI and Oracle: preferred partners in your success.
