NEWS FLASH- CGI Releases ProSteward Online 9.0

October 2007

CGI announces the availability of **ProSteward Online 9.0** which provides chemical workflow enhancements and Windows Vista support.

ProSteward Online is a configurable comprehensive hazardous material data and document repository that provides web-enabled access to chemical data for workers and stakeholders alike. It includes chemical inventory tracking and environmental reporting capabilities in a user-friendly tool for industrial facilities.

ProSteward Online's new chemical approval enhancements enable companies to ensure that chemicals are reviewed and approved for environmental, health, and safety properties as well as consistency across the enterprise prior to procurement.

ProSteward Online assists with:

- > Document Management--Manages (M)SDSs and other hazard communication documents in multiple languages and a variety of document formats
- > Chemical Data Management--Maintains hazard, transport, disposal, bio/rad data
- > Chemical Inventory--Tracks chemical inventory by location, down to the container level
- > Chemical Approval Process--Provides a standard way of approving chemical data to operations with consistent workflow for the introduction and use of new chemicals in the organization
- > Regulatory Management--Generates regulatory reports (e.g. SARA 311/312)
- > Integration with other systems (e.g. reporting, distribution, authoring, industrial hygiene, ERP)

About CGI

CGI is a full service IT and Managed Services Provider with focused industry expertise and innovative service models that help clients achieve their business goals. We have extensive experience in delivering high-quality, integrated regulatory compliance solutions to global enterprises through a combination of proprietary and other best-in-class solutions that leverage our systems integration expertise, domain health and safety expertise and deep experience across industrial segments.

CGI provides an integrated platform of environmental, health, safety; quality/audit and compliance solutions that help clients better serve their markets, improve and sustain competitive advantage, and reduce overall compliance risk.
