- User-friendly features and functionality
- Built with latest generation technology
- Single document, multi-link storage efficiency
- Drag and drop features
- Automated document organization
- Client defined report retention period
- Multi-parameter search capabilities

BENEFITS

- Protect sensitive documents
- Minimize storage requirements
- Securely distribute reports
- Provide secure access to both internal and external recipients

SECURE STORAGE & DISTRIBUTION

The MSuite Document Centre is a secure central repository facilitating the storage and distribution of documents to both internal and external recipients.

The Document Centre enhances the security of your document distribution process by granting you complete control over the delivery method and storage of the documents you disseminate to employees, partners and clients.
