# Environmental Solutions Group Offerings

# CGI and the Exchange Network

CGI uses Exchange Network technology in innovative ways, imbedding data exchange technology within your agency to help integrate existing systems.

CGI's solutions and data exchange training services empower you to become active on the Exchange Network, and to do so *quickly*.

CGI's environmental and regulatory subject matter experts bring unique program specific knowledge to your Exchange Network initiatives.

CGI's solutions are Open Source and enable agencies to take ownership of the mechanisms used to participate on the Exchange Network

CGI's clients span Commercial, County, State, and Federal agencies, allowing unique stakeholder insight in this collaborative environment

# CGI Exchange Network Solutions

- CGI Node 2.0 Software
  - Open Source
  - Pluggable framework
  - Data Publishing capabilities
  - Packaged Data Flows
- Data Exchange Wizards
  - Inbound and Outbound Data Flows
  - Open Source
- Data Exchange Services
  - Data Publishing Training
  - Data Flow Development
  - Application Development
  - Consulting Services
  - Upgrade and Configuration Services

# Node 2.0 Support Packages

	Package 1	Package 2	Package 3
Includes	<ul style="list-style-type: none"> <li>■ Installation</li> <li>■ Configuration</li> <li>■ Node Administration Training</li> <li>■ Data Flow Publishing Training</li> </ul>	<ul style="list-style-type: none"> <li>■ Installation</li> <li>■ Configuration</li> <li>■ Node Administration Training</li> <li>■ Data Flow Publishing Training</li> <li>■ 6 Months Technical Q/A (Phone/Email)</li> </ul>	<ul style="list-style-type: none"> <li>■ Custom Consulting Services</li> </ul>

- Two Basic Service Packages for Installation and Support
- Out of the Box Services provided include:
  - Installation
  - Configuration
  - Training
- Custom Support Packages Available
  - Data Flow Upgrades
  - Consulting Services
  - Expanded Training and Support
