

# CGI Atlas E|C|L™ the end-to-end eCommerce solution for government

Experience the commitment®

The CGI Atlas E|C|L eCommerce customer logistics platform leverages best-in-class technology to increase the efficiency and effectiveness of government e-commerce operations.

Bundling the best of commercial e-commerce and government service management into a mission-ready solution, CGI has defined a new category of commerce: GB2C™ or **Government Business to Consumer**. GB2C enables our government clients to transact, inform, communicate, and serve consumers worldwide. Whether the products are visas or missiles, CGI Atlas establishes consistency across business and functional areas:

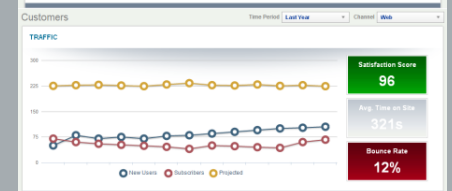

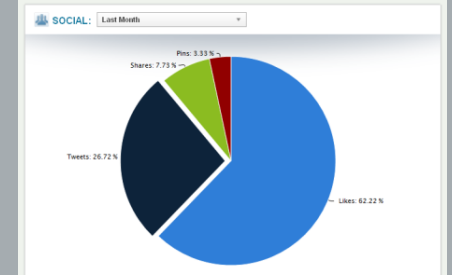

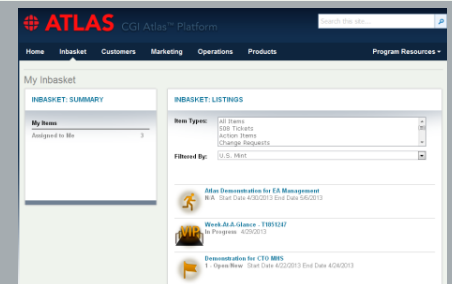

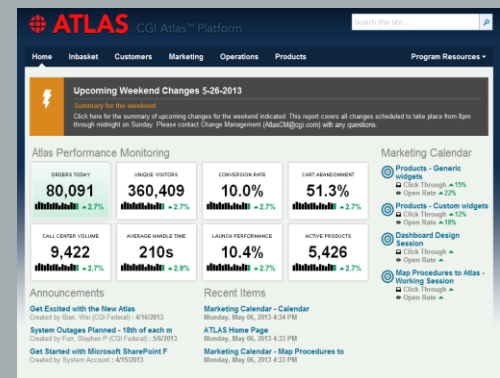

- E-commerce
- Digital Strategy and Marketing
- Point of Sales
- Contact Center
- Fulfillment
- Inventory/Warehouse

Stakeholders and managers gain operational influence, as well as visibility into and oversight of operations and operational decisions. CGI Atlas is highly configurable to meet quickly changing business needs without going through lengthy software development cycles.

## CGI Atlas E|C|L Platform

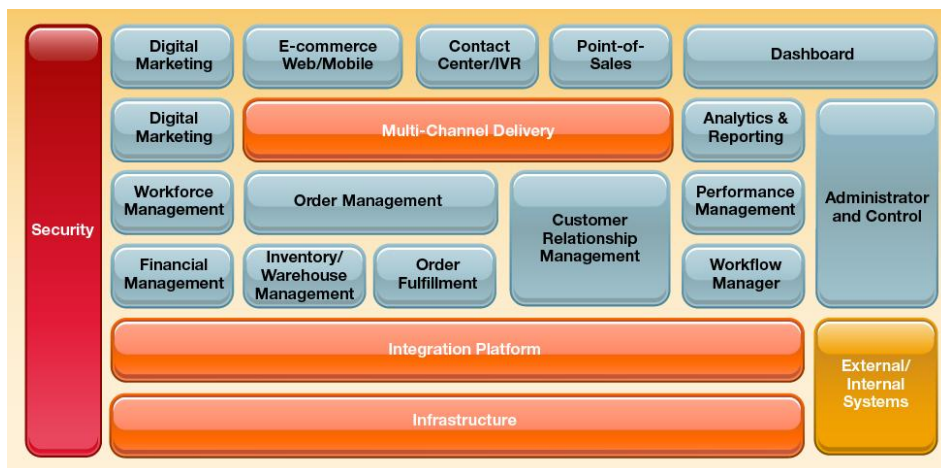

CGI ATLAS E|C|L ENABLES  
OPERATIONAL INFLUENCE,  
VISIBILITY AND OVERSIGHT.

## Reference Architecture of the CGI Atlas E|C|L Platform

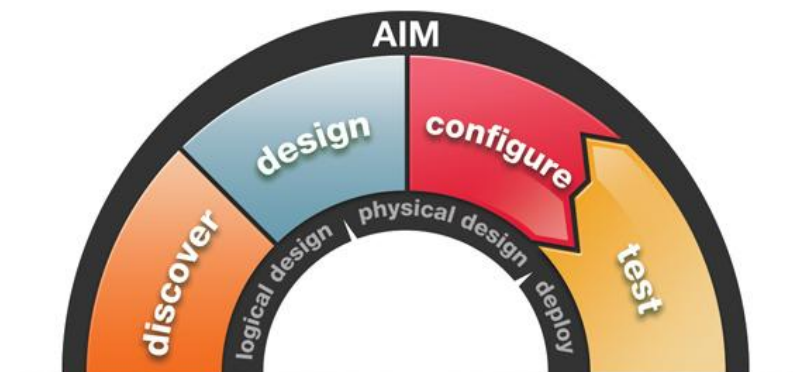

CGI Atlas E|C|L architecture follows industry best practices and has been refined based on the lessons learned from previous project implementations. We apply service-oriented architecture (SOA) principles to improve reusability, modularity and interoperability which results in higher business agility to respond more quickly and cost-effectively to changing business requirements.

In the United States, CGI Atlas E|C|L is hosted in the CGI Government Cloud which meets Section 508 accessibility requirements, is FISMA compliant, meets Federal Risk Authorization and Management Program (FedRAMP<sup>SM</sup>) security requirements, and has been granted provisional Authority to Operate (P-ATO) by the Joint Authorization Board (JAB). CGI Atlas E|C|L is designed to meet legislatively-driven product and campaign requirements.

The CGI Atlas E|C|L Implementation Methodology (AIM) highlights the processes and activities we follow to configure the platform for each customer.
