ONE PROVIDER—ONE SOLUTION.

While you focus on growing your business, CGI is focused on ensuring you have the best solutions to manage your financial institution's evolving operational needs. CGI's HORIZON™ Financial Suite is a core retail banking system with fully integrated modules that can be added on as required to create a robust, custom solution designed to help you increase efficiencies, reduce costs, improve customer service and, ultimately, drive profitable growth.

HORIZON Financial Suite advantages

Used by more than 120 financial institutions across Canada, HORIZON Financial Suite supports small and mid-size financial institutions, both traditional and non-traditional. With HORIZON, our clients gain the following advantages:

- **Low cost, high value:** HORIZON is hosted on a secure, shared infrastructure, reducing your costs while, at the same time, delivering high value. You can also take advantage of our supporting CGI Circuit services, which include network, disaster recovery and hosting services.
- **Easy to implement:** CGI's HORIZON conversion team is highly experienced, having successfully performed more than 100 successful conversions on many different banking platforms. The system itself is delivered through a web browser, requiring no onsite setup. Following a proven methodology, our conversion team takes your team through every step of the conversion process.
- **Highly scalable:** As your business grows, you may need additional HORIZON components and/or supporting services, as well as more power to process your growing volumes. HORIZON can be easily expanded to meet your evolving needs.
- **Extremely secure and stable platform:** As a managed solution, HORIZON passes annual Section 5970 audit reports with no reported deficiencies year after year and consistently meets or exceeds client service level agreements.
- **Modular components:** HORIZON's modular components are easy to add to meet changing business needs. You can add banking, customer relationship management, loan origination and collections components, all of which can be

quickly integrated to provide a custom solution.

- **Third-party interfaces:** HORIZON Retail Banking can be integrated with third-party solutions using Web services. Integration with any standard third-party interface is possible. Current supported interfaces include online banking, clearing and settlement, fraud detection and anti-money laundering, credit bureaus, bill payments, switching, document management, card ordering, etc.
- **Conversion services:** CGI's HORIZON conversion team is highly experienced, having successfully performed more than 100 successful conversions on many different banking platforms. Following a proven methodology, our conversion team takes your staff through every step of the conversion process.
