

CGI rFRAME

The financial world is under more pressure than ever from regulators and governments. New regulations and reporting requirements are requiring financial institutions to report more regularly, in greater detail and with more demanding deadlines.

rFRAME

CGI's rFRAME solution manages the full reporting requirements of banks, and we regularly update it to meet new reporting requirements. rFRAME is made up of the following modules:

- **Data Management Module:** Ensures your systems work well with rFRAME, capturing the data you need for compliance and reporting. You won't have to change or update the technology you already have.
- **Regulatory Reporting Module:** Uses your data to prepare, calculate and submit regulatory reports.
- **Flexible Query Module:** Enables non-technical users to create their own, personalized internal reports, using the same data sent to regulators.

HOW IT WORKS

rFRAME efficiently performs the following key compliance functions:

- Captures the data you need
- Creates draft reports based on your business rules
- Displays the reports for review and changes
- Submits the reports electronically in the format each regulator requires

WHY CHOOSE rFRAME?

With rFRAME, you can expect the following:

Expert support

- Access to a CGI help desk
- Dedicated service manager to ensure your satisfaction
- Ability to easily download new software and documents from our website
- E-newsletters and website posts for news on financial regulations
- Useful guides to help you make changes to your infrastructure in the future

Continuous dialogue and development

KEY BENEFITS

- Regular updates ensure you are always in compliance, protecting your reputation
- Fully automated, so you can meet reporting deadlines easily, and your staff is free to work on other projects
- Check past reports to spot inconsistent data and prepare for regulators' questions
- Tight security features allow you to control who has access to which functions
- Submit regulatory reports online, saving time and money

- Regular meetings to talk about regulatory issues and challenges (we use your feedback to improve rFRAME)
- Continual rFRAME updates to ensure you fully comply with the latest regulations

Ease and efficiency

- Tried and tested method for transferring your old reporting systems to rFRAME quickly and easily
- Personal project manager to guide you every step of the way
- A team of consultants who have in-depth experience in setting up regulatory reporting systems

WHY CGI?

We've been shaping and supporting the financial services market for decades. We were behind the original design for the SWIFT interbank network in the early 1970s, and since then, we've worked with 70 percent of the world's top financial institutions, including 8 of the top 10 global banks.

Our systems currently process: 40 percent of the world's foreign exchange, 19 trillion dollars in fund transfers each day, as well as 15 percent of all SWIFT messages. We have built more than 20 of the world's RTGS payment structures. Our clients are supported by more than 10,000 financial services professionals based across 40 countries.

We work as a partner, not just a provider. Through a consistent, disciplined and accountable delivery approach, CGI has achieved an industry-leading track record of on-time, on-budget projects. As a result, our average client satisfaction score for the past 10 years has measured consistently higher than 9 out of 10. We are helping financial institutions, including most major banks and top insurers, reduce cost, increase efficiencies and improve customer service.

ABOUT CGI

With 69,000 professionals operating in 400 offices in 40 countries, CGI fosters local accountability for client success while bringing global delivery capabilities to clients' front doors. Founded in 1976, CGI applies a disciplined delivery approach that has achieved an industry-leading track record of on-time, on-budget projects.

Our high-quality business consulting, systems integration and outsourcing services help clients leverage current investments while adopting new technology and business strategies that achieve top and bottom line results. As a demonstration of our commitment, our average client satisfaction score for the past 10 years has measured consistently higher than 9 out of 10.
