Regulatory & Statistical Reporting

THE STATS ADVANTAGE

- Reliable, dependable, on-time reporting
- Short implementation period
- Proven insurance software and service levels
- Expert circular and bulletin review
- Capacity to handle all facets of statistical reporting

OUTSOURCING YOUR REPORTING NEEDS

Compliance with both statistical and state regulatory requirements within the property and casualty sector can be a time-consuming and costly challenge. This is especially true for insurance carriers burdened with staffing limits to report statistical data accurately and within stat agency-mandated deadlines. By using our STATS system, CGI is capable of handling all facets of your reporting needs, allowing you to concentrate on core business strategies, such as entering new markets or launching new lines of business. By choosing a partnership with CGI to handle your reporting needs, you receive proven, comprehensive and cost-effective services that are seamless, timely and accurate.

STATS, proven reliable for the last 25+ years, formats your data into stat agent-required codes and record layouts for balancing, editing and transmitting. CGI has the tools and expertise to report to the following organizations: American Association of Insurance Services (AAIS), Independent Statistical Services (ISS), Insurance Services Office (ISO), including Surety Association of America (SAA), National Council on Compensation Insurance (NCCI), National Independent Statistical Services (NISS), Commonwealth Automobile Reinsurers (CAR) of Massachusetts, and Texas Reporting. In addition to these stat agents, we also report data, on your behalf, to fulfill state regulatory requirements.

Customer support

CGI's statistical reporting team offers a dedicated customer service staff, whose members are well aware of stat agent requirements. We analyze your data thoroughly to ensure the presence of the correct format and codes for each agent.

CGI professionals, many of whom have more than 20 years experience in the insurance and reporting services business, work with customer representatives to offer suggestions for continually improving the process, validating the accuracy of statistical submissions, and ensuring full regulatory compliance. CGI's position on the stat agent's technical advisory committee allows us, and our customers, to have a voice in regulatory reporting and advanced knowledge of potential changes in the insurance industry.

Statistical reporting services

- Assessment and implementation of all relevant circulars to evaluate potential impact on clients' statistical requirements
- Consultation and assistance for any statistical reporting issues, including direct interaction with stat agents, as necessary, to ensure compliance
- Processing all personal and commercial lines of business for all states
- Processing statistical data through CGI's STATS system to ensure an accurate record layout and code compliance
- Balancing of premium and loss amounts
- Processing data through the latest available edit packages
- Review and elimination of errors discovered during processing to ensure submission acceptance, thus reducing or eliminating fines
- Electronic data submission to ensure timely compliance
- Retention of statistical submission data files and reports

Proven statistical services

- CGI statistical software monitoring for regulatory compliance, operational capacity, functionality and data quality
- More than 25+ year history of statistical reporting services
- Reliable, dependable, on-time reporting to all major stat agencies
- Numerous statistical and technical analysts
- Technical representation on the NISS advisory committee

The CGI advantage

At CGI, we believe in developing and implementing the most sensible, cost-effective solutions that meet our clients' business needs and IT challenges. By using a delivery model that offers choices tailored to meet their individual needs, our clients realize significant cost savings without sacrificing quality or control.

A total commitment to client service makes CGI an ideal business partner. CGI professionals are dedicated to our clients, providing technical expertise; industry knowledge; multi-vendor experience; and a proven ability to deliver projects on time and on budget. The result? Highly satisfied clients who realize the optimum value of CGI services and solutions.

CGI's regulatory and statistical reporting service expertise has been built on a solid foundation of partnership and trust with our clients, who have numbered 85+ over the years. Our flexibility and experience in dealing with the insurance industry and stat agencies enables our clients to improve business operations and increase profitability.

COMPANY PROFILE

At CGI, we're in the business of satisfying clients. For 30 years, we've operated upon the principles of sharing in our clients' challenges and delivering quality services to solve them.

As a leading IT and business process services provider, CGI has approximately 25,000 professionals operating in 100+ offices worldwide, giving us the competitive advantage of close proximity to our clients. Through these offices, we offer local partnerships and a balanced blend of global delivery options to ensure clients receive the combination of value and expertise they require.

CGI defines success by exceeding expectations and helping clients achieve results.
