IPCentricTy™

COMPANY PROFILE

At CGI, we're in the business of satisfying clients. For 30 years, we've operated upon the principles of sharing in our clients' challenges and delivering quality services to address them.

A leading IT and business process services provider, CGI has approximately 26,000 professionals operating in 100+ offices worldwide, giving us close proximity to our clients. Through these offices, we offer local partnerships and a balanced blend of global delivery options to ensure clients receive the combination of value and expertise they require.

CGI defines success by exceeding expectations and helping clients achieve superior performance.

IP TECHNOLOGY IS RADICALLY TRANSFORMING BUSINESS AND THE MEANS OF COMMUNICATIONS AS WE KNOW IT. NETWORK ARCHITECTURES ARE FUNDAMENTALLY CHANGING ALLOWING MORE COMPELLING SERVICES WHICH ARE DECOUPLED FROM THE UNDERLYING NETWORK.

The result is a very different and dynamic environment, aka Next Generation Networks, than we've ever known in the communications industry. Our clients have new demands and high expectations, new competitors, new threats and new partnership opportunities. In concert, all this activity brings new service offering opportunities limited only by the imagination. Communications companies know that they must adapt, or fail. Revolutionary technologies can be embraced and capitalized upon or they can be ignored, resulting in certain business failure. The price for doing nothing is too great.

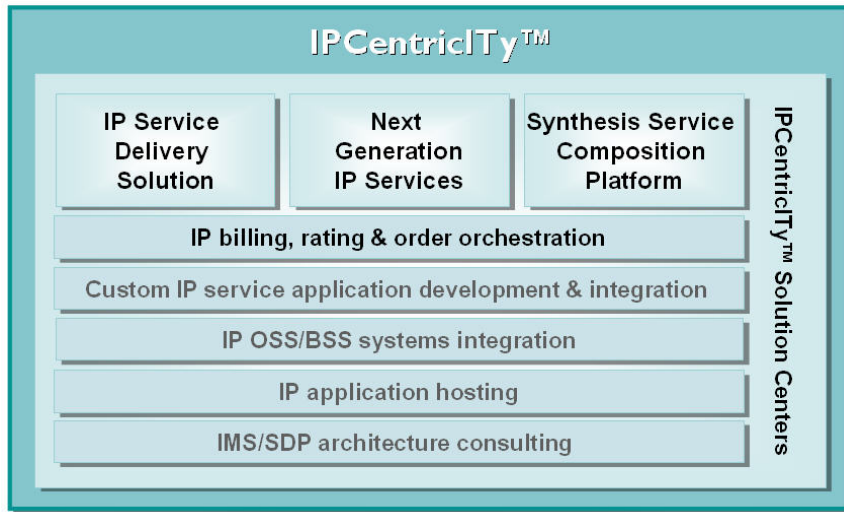

Additionally, the customer has the challenge of ensuring their offerings differentiate them from their competition. To win in business now, you must be remarkable. There is proof of this everywhere we look, no matter the industry. So, are you ready to be remarkable?

IPCentricTy™ helps clients be remarkable.

IPCentricTy™ is the realization of CGI's vision and action plan for the future of the communications and media industry. It is born out of a passion to understand how we can help our clients realize the potential benefits of an all IP network. It addresses a changing industry and the challenges and opportunities these changes present to our clients, whether it be oriented towards technology, business models, new services, strategic partnerships or simply consulting services.

As a practice in the spirit of IPCentricTy™, CGI has developed extensive capabilities for helping telecom clients move into the world of IP-centric technologies and realize the tremendous benefits it promises. CGI works side-by-side with our clients to tailor and launch their differentiating service offerings and help them be remarkable.

The IPCentricity™ offering includes:

- Service Delivery Solution (SDS) – our open standard, feature rich reference architecture and integration toolkit
- Next Generation IP Services – a set of pre-built, foundation service components
- Synthesis, our leading-edge IP service composition platform – facilitating rapid creation of new convergent communication services
- Tapestry® suite – facilitating convergent order management, rating and billing as a key element of the transition to IP

These features and more have been proven in our global IPCentricity™ Solution Centers, which demonstrate the offerings capabilities and enable interactive service prototyping and interoperability testing.

Supporting all this is:

- Customized IP application development and the subsequent integration into operational and business systems
- A deeply knowledgeable team with practical experience in next generation services development
- Strategic affiliations with numerous relevant standards organizations as well as advanced research activity

IPCentricity™ helps you be remarkable.

IPCentricity™ is CGI's foundation for the future of the communications and media industry born out of our passion in helping our customers realize the benefits of an all IP network. We have extensive experience and capabilities in helping service providers move into the world of IP-centric technologies, and realize the tremendous benefits it promises. Contact us to learn how you can benefit from IPCentricity™. For more information, contact your CGI representative, email ipcentricity@cgi.com or visit www.cgi.com/ipcentricity
