YOUR EDGE FOR POLICY ADMINISTRATION

Energize your Policy Processing

With CGI Edge Policy, you can bring the power of policy processing to any user, anywhere, anytime — improving efficiency and providing your enterprise with superior productivity and flexibility.

Features

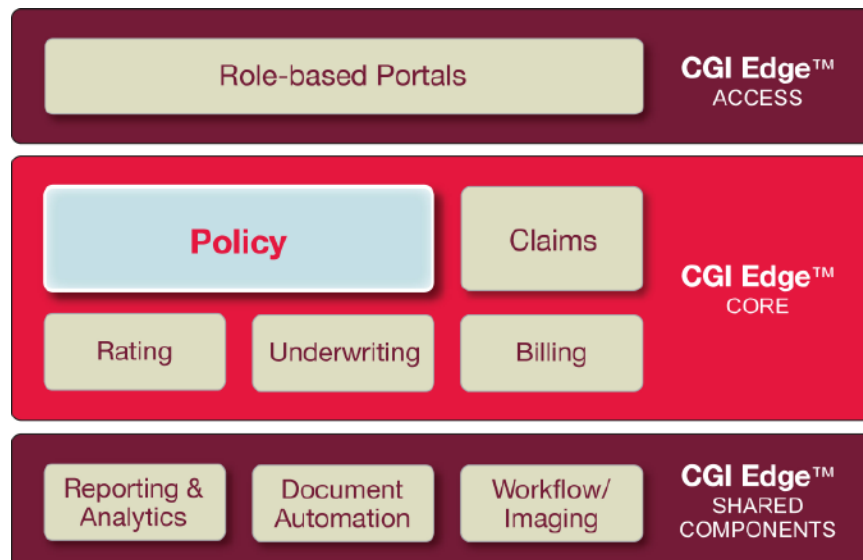

- _ Quote and issuance
- _ Policy administration
- _ Agency administration
- _ Automated reinsurance processing
- _ Billing and accounting

About CGI Edge

CGI Edge is a robust, flexible insurance administration system offered by CGI on either a licensed or application service provider basis. CGI Edge provides modules for managing policy, claims, premiums, reinsurance, commissions and producers for all facets of the property/casualty industry.

CGI Edge™ Policy provides a winning combination of leading-edge technology with industry-recognized best-in-class functionality. Using CGI Edge Policy, you can easily adapt to the changing marketplace, promote efficiency in your environment, and put intuitive tools in the hands of your users.

CGI Edge Policy offers powerful, user-friendly functions including quote and issuance, policy administration, billing and accounting, reinsurance, agency processing, full integration with claims processing, and management/statistical reporting. The components work together seamlessly to make your processing more efficient, accurate, and productive.

Benefits

- _ Promotes your business by providing agents an easy-to-use web-based interface, allowing you to easily deploy new products, rate changes, and other new features to your agency force with little effort.
- _ Extends agent service capabilities, by allowing your agents to access all policy transactions — using CGI Edge, they can now quote new business, enter policy changes, create insurance cards, etc.
- _ Promotes quick and cost-effective introduction of new products and services by allowing you to configure once and deploy to all users in all environments.

SYSTEM COMPONENTS

Quote and issuance

Whether performed by the agent or the home office, the quote and issuance component facilitates a quick and accurate quote. Intuitive in design, the system lets new users walk easily through the process and power users speed right through. Issuance integrates rating, expert underwriting, product rules, and third-party data sources such as credit, CLUE, MVR, property values, and additional driver to underwrite and issue the policy.

Policy administration

Policy administration automates all premium and policy-related transactions throughout the lifecycle of the policy. Your agents and other business partners have web-based access to perform any function that you authorize. All policy changes, including back-dated or out-of-sequence changes are immediately applied. Product changes and new product development are made easy using the product configuration utilities.

Agency and producer management

Agency and producer management supports a hierarchy of master agents, agents, and subagents, allowing you to capture general agency information, as well as applicable licensing and commissioning data.

Reinsurance component

The integrated reinsurance component allows for the setup and maintenance of your reinsurance treaties. The system has the ability to attach treaties at the reinsurance location or policy level. Ceded premium is calculated at month-end based on attached arrangements. At month-end, premium reinsurance is calculated from either direct written premium or from direct earned premium.

Regulatory and statistical reporting component

Policy and claims data can be reported to your selected statistical agents using our optional bureau reporting service. All of the major reporting bureaus are supported.

Operating environment

CGI Edge is an n-tier, service-based solution. The rich, browser-based client runs on any operating system supporting Internet Explorer 6 or 7. The web/application server runs on Windows Server 2003 and IIS6. Oracle 10g is used in the data tier.

For more information about CGI Edge or to schedule a personal demonstration, please contact CGI's insurance sales team at 1-800-433-2452 or via email at insurance@cgi.com.

CORPORATE PROFILE

At CGI, we're in the business of satisfying clients. For 30 years, we've operated upon the principles of sharing in our clients' challenges and delivering quality services to solve them.

A leading IT and business process services provider, CGI has approximately 27,000 professionals operating in 100+ worldwide offices, giving us close proximity to our clients. Through these offices, we offer local partnerships and a balanced blend of global delivery options to ensure clients receive the combination of value and expertise they require.

CGI defines success by exceeding expectations and helping clients achieve results.
