- _ U.S. Agency for International Development

HELPING EXTEND YOUR COMPETITIVE REACH

CGI Federal clients gain the advantage of technical expertise coupled with extensive government consulting experience. We regularly team with small businesses to complement expertise and experience in order to offer our clients innovative and cost effective solutions.

We are continually seeking companies that can supplement our in-house professional, technical and support capabilities in the areas of systems integration and consulting, application management, technology management and business process services. An important goal of our Small Business Program Office is to identify qualified small businesses capable of providing these types of services, and to pursue subcontracting opportunities where mutually beneficial.

Through advocacy, outreach and counseling, CGI Federal helps our small business partners grow their business while incorporating leading strategies and best practices. With 30 years of experience, and an extensive client roster, we offer small businesses the opportunity to help transform government organizations.

We are committed to helping small businesses be an active participant in the marketplace. This commitment is demonstrated through our services and open spirit. CGI Federal participates in the Mentor/Protégé programs of the Department of Homeland Security, Department of Treasury and the Small Business Administration, and has received small business awards from the Department of Justice and the Greater Washington Board of Trade.

"CGI Federal sets the standard for small business advocacy. They enthusiastically reach out and ensure small business owners have an opportunity to connect with key CGI Federal stakeholders. CGI Federal recognizes that small businesses can make tremendous contributions, and searches for ways to bring people together."

—Marissa Levin, CEO, Information Experts

VALUE ADDED SERVICE

CGI Federal offers small businesses the opportunity to grow—from generating new business to providing advice on how to build go-to-market strategies and incorporate industry best practices. Here is how the CGI Federal Small Business Program Office can help you.

Advocacy

The CGI Federal Small Business Program Office advocates small business inclusion across our entire pipeline. We maintain an internal database that lists small businesses' skills, experience and niche markets. In addition, we regularly meet with small business government offices to ensure that they are kept informed of our Small Business Program Office programs and partners.

Outreach

To introduce small businesses to CGI Federal account and sales personnel, we host a series of group showcases where you can demonstrate your products and services. We also facilitate database matching—proactively linking your services with our opportunities—and arrange one-on-one meetings between your business and key CGI Federal personnel.

Counseling

We want to help you grow—not only financially, but intellectually, too. CGI Federal provides small businesses with advice on how to build successful go-to-market strategies and employ industry best practices.

Contracting Vehicles

CGI Federal can offer services under the following contracts:

- _ GSA IT Schedule 70
- _ GSA MOBIS
- _ DOJ Information and Technology Support Services (ITSS-3)
- _ IRS Total Information Processing Support Services (TIPSS-3)
- _ GSA Environmental Services Schedule

A PARTNER OF CHOICE

CGI Federal is a trusted business partner with know-how, integrity and commitment in delivering client success. These values are helping our small business partners reach their goals. To learn more about how your small business can work with CGI Federal, contact Paula N. Haedel, Director, Small Business Program Office, at paula.haedel@cgifederal.com.

“Most organizations ask you to fill out a form and you never hear from them again. Not CGI Federal. It was refreshing how they took a personal interest in my organization, providing support and advice on a variety of subjects. CGI Federal is a real leader in their support of small businesses.”

—Debra Ruh, President and Founder, TecAccess

CORPORATE PROFILE

CGI Federal is a full-service IT and managed services provider with deep federal expertise and innovative service models that help our clients achieve their business goals. For three decades, CGI Federal has partnered with a majority of federal agencies to help them plan, design, implement and manage highly effective and efficient federal government environments. Backed by the resources and best practices of a global organization 25,000 strong, our federal sector specialists are ready to bring this tradition of excellence to your agency.
