## The CGI Management Foundation

The CGI Management Foundation represents the architecture of our management approach. It governs how we deliver services to clients, how we interact with our members and how we respond to shareholder requirements — and it measures the satisfaction level of all three constituents. This allows us to gauge the success of our initiatives, take preventive action before issues arise and evolve in the spirit of continuous improvement that has been the hallmark of CGI since its beginning.

The CGI Management Foundation helps us maintain the best equilibrium between the needs of all our stakeholders. As such, it is at the heart of our strategy for profitable growth.
