

# CGI Federal at a Glance

**A**t CGI, we're in the business of satisfying clients. For 36 years, we have partnered with global commercial and government clients on a range of enterprise-wide IT initiatives that have reduced costs, increased operational efficiency, and generated business insights that drive decision-making. We are committed to partnering with U.S. defense, civilian, and intelligence agencies to support their mission-essential needs at every stage of the program, product and business lifecycle. With an on-time, on-budget track record, we roll up our sleeves, flex to ever-changing needs, and deliver what we promise.

## A CLIENT-CENTRIC, PARTNERSHIP APPROACH

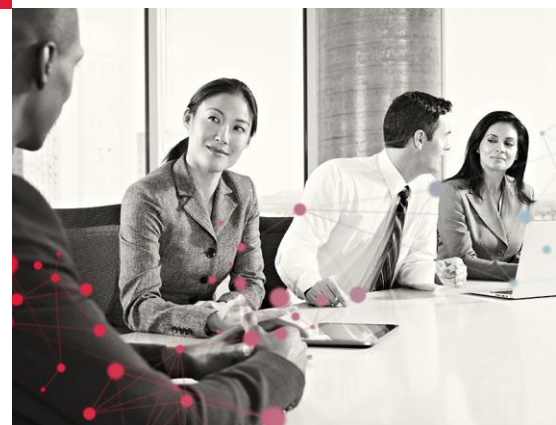

We have the deep mission understanding and technical expertise to help you get results. We honor our commitments and our business approach puts clients first.

- **Federal government mission expertise**—fuels our deep understanding of the challenges and opportunities facing federal agencies, so we can help implement solutions that improve outcomes and maximize results.
- **Quality processes and frameworks**—ensure a high level of satisfaction and delivery excellence through ISO 9001-certified and CMMI Level 3-compliant operations.
- **Flexible delivery options**—combines onsite responsiveness through our local offices with cost-effective remote delivery capabilities through CGI's secure U.S.-based onshore centers of excellence.
- **Technology independence**—focuses on selecting products, services and solutions that best fit a client's unique challenges and requirements.
- **Client-proximity model**—organizes operations around metro markets and client locations, allowing us to be deeply rooted in the community and locally-accountable for clients' project success.
- **Ownership mentality, with 90% of professionals as shareholders**—results in a more stable, dedicated team of professionals to help clients achieve results.

## Results-focused services and solutions

CGI's portfolio of services enables us to serve as clients' full-service provider for every facet of their operations. Key service areas include:

- **Advanced engineering and technology services**—delivers analysis, design, prototyping and engineering.
