Adj EBIT margin	13.5%	21.1%	11.0%	3.1%	14.1%

As a result of an organizational adjustment, CGI's operations are now being managed through four operating segments as compared to three in the prior year. Global Infrastructure Services (GIS) is a new reporting segment, and to provide clarity, above are the restated segmented figures as they would have been reported in F2010.
