CGI PROFILE

At CGI, we're in the business of satisfying clients by helping them win and grow. Since our founding in 1976, we've operated upon the principles of sharing in clients' challenges and delivering quality services to address them.

A leading IT and BPS provider, CGI has a strong base of 31,000 professionals operating in 125 offices worldwide. Through these offices, we offer local partnerships and a balanced blend of global delivery options to ensure clients receive the optimal combination of value and expertise required for their success.

We define success by helping our clients achieve superior performance and gain competitive advantage.

End-to-end services

- Consulting
- Systems integration
- Management of IT and business functions
- 100+ proprietary business solutions

eBaoTech and CGI team up to provide services to the Polish insurance market

eBaoTech Corporation, a leading vendor of modern policy administration systems for the life and general insurance market, and CGI in Poland (CGI Information Systems and Management Consultants) are teaming up to provide services around eBaoTech's GeneralSystem and LifeSystem software suites to insurers in Poland. Poland shows promising opportunities for eBaoTech's flagship insurance software products, but at the same time demands local know how and capabilities, which will be provided by CGI in Poland. CGI has broad experience in the insurance market with the maintenance, implementation and development of insurance applications, and supplements ideally eBaoTech's global product teams.

A team of CGI experts in Poland has been trained on eBaoTech applications, and a joint center of excellence will be built up in Warsaw to provide high-quality implementation service to Polish insurers.

About eBaoTech

eBaoTech is an established provider of insurance software solutions with a presence across the globe. Core advantages of eBaoTech's solutions include proven product offerings, a strong track record of successful implementations, localised support and a sharp focus on insurance innovation led by a highly experienced team of professionals. eBaoTech's new generation of web technologies, Service Oriented Architecture (SOA) and best practice management features enable insurers to shorten product lead time and substantially lower operation costs.
