

Mary Peragallo

Vice President for Commercial Health

Mary Peragallo is a results-driven business leader with over 28 years experience in selling and delivering complex information technology services globally.

Beginning her career with Electronic Data Systems, Mary has held a variety of senior leadership positions specializing in all aspects of business development, financial and account management across multiple industries including Healthcare, Communications, Media and Entertainment, Financial Services and Retail.

Prior to joining CGI in 2011, Mary was the executive in charge of a large global outsourcing contract in the pharmaceutical industry for HP. In this role, Mary spent three years leading over 1000 matrixed resources to transform and maintain a complex infrastructure across over twenty countries. Prior to this position, Mary managed many successful relationships with tier one companies as a segment director at EDS within the Healthcare industry. In addition, she has participated in three large mega-deal pursuits, played leadership roles in various start-ups as well as nurturing complex relationships and then leading the delivery of commitments to the delight of her clients.

About CGI

At CGI, we are in the business of satisfying clients. For 35 years, we have operated upon the principles of sharing in clients' challenges and delivering quality services to address them.

A leading IT and business process services provider, CGI operates in 125 offices worldwide, giving us the competitive advantage of close proximity to our clients. Through these offices, we offer local partnerships and a balanced blend of flexible delivery options to ensure clients receive the combination of value and expertise they require.

CGI defines success by exceeding clients' expectations and helping them achieve superior performance.

Services and capabilities

From providing consulting and systems integration services to managing IT and business functions on behalf of our clients, CGI provides an all-encompassing offering that includes the planning, design, implementation and management of highly effective IT environments. Our global delivery capabilities include onsite, home-shore, near-shore and off-shore options, giving our clients the flexibility to choose the model that best meets their needs.

Through our vertical expertise in financial services, government and healthcare, telecommunications and utilities, retail and distribution and manufacturing, we provide clients with a partner that is not only expert in IT, but expert in their industries. This combination of business knowledge and technology expertise allows us to help our clients adapt as their industries change, and in the process, allows us to help evolve the industries in which we operate.
