CGI -SAP SuccessFactors
Intelligent HCM

CGI

Higher demands on efficient onboarding and the move from transactional to strategic HR require a set of modern, comprehensive and intelligent tools. CGI's Starter Package for Intelligent HCM will jump start your move to a more efficient and engaging way of managing your most valuable resource – your people.

Onboarding new talent quickly, engaging your employees with digital tools and to derive useful, actionable data out of your daily transactions. These are some of the key drivers for investing in a modern cloud solution for your HR processes. With the CGI Starter Package for Intelligent HXM - you will leverage new top-of-the-line technology to proactively engage with your employees and capture their personal experiences.

INTELLIGENT HCM

By redirecting our focus on HCM we aspire to help our customers in capturing, analyzing, streamlining, and making strategic decisions based on both operational data, which describes how something is working, but also experience data, which describes why it is working the way it does.

Together with the transactional data captured, the intelligent SuccessFactors platform enables organizations to rapidly and radically improve the employee experience – whether at a micro-individual or at a business-wide level.

STARTER PACKAGE FOR INTELLIGENT HCM

CGI offers you a quick and easy way to get started towards achieving Intelligent HCM. With these first vital building blocks, you can jump start your organization's journey to a faster, more intuitive, and actionable future. To become a best run business.

The HCM Starter Package applies advanced technologies and best practices with agile, integrated HR processes. Making your organization more resilient, profitable, and sustainable. Combining the best practice methodology with real experience implementing and delivering CGI HCM, CGI ensure customers fast time to value.

With a cloud system, you will always have access to the latest innovations, which means you can instantly leverage new technologies

for driving continuous business transformation. The true cloud solution is an initiator for strategic and value creating HCM.

IMPLEMENTATION

The implementation of CGI Intelligent HCM Starter Package follow a Fit-to-Standard way of thinking, where the SAP Best Practices to the furthest extent are implemented in the new HCM-solution. The implementation methodology we are using is proven SAP Activate. We have chosen the first crucial pieces of the system puzzle to get you started with your Intelligent HCM-solution.

By following our proven methodology and having a fit-to-standard mindset, we can have you up and running in 12 weeks including a hyper care period.

Less time, less hassle and less cost. It's as simple as that.
