

CGI's Global Delivery Model

A best-fit delivery model
for your business needs

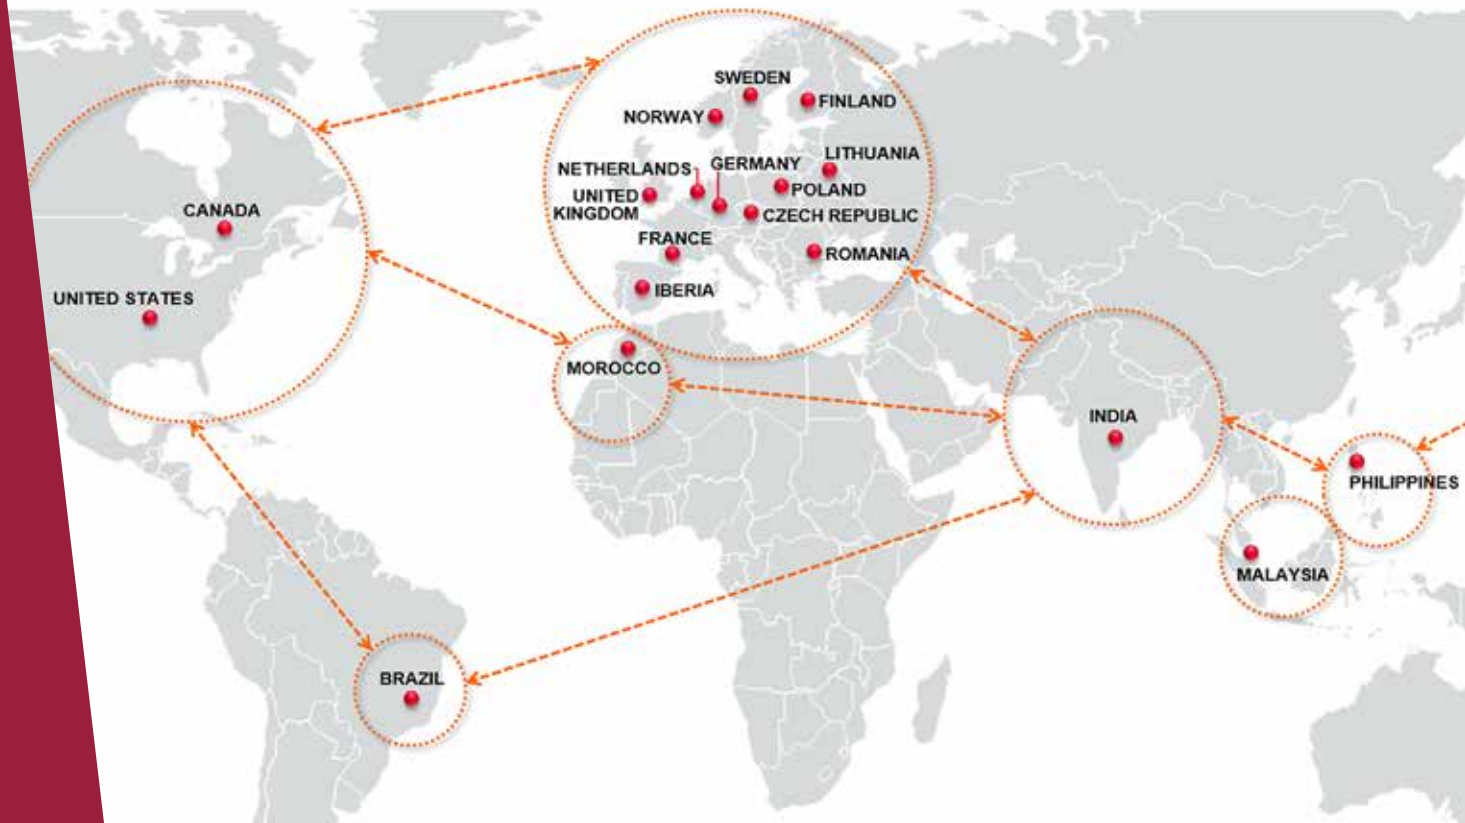

CGI

Experience the commitment®

CGI's extensive global delivery network is the foundation of our service delivery model

CGI's global delivery model helps drive down costs and speed up implementation of strategic initiatives, enabling you to compete and win in the global economy. At CGI, we invest to meet our clients' future challenges through a full portfolio of services and flexible delivery options that balance cost, quality and risk.

Our best-fit delivery approach includes CGI's client proximity model that provides for local resources to deliver the quick response and local accountability required for success. Through these local teams, we offer competitive services leveraging an optimal blend of delivery centers, either locally or globally, all operating under CGI's Management Foundation to generate consistent results.

Customized solutions using best-fit delivery approach

With CGI's governance model and approach, our clients benefit from a personalized global delivery solution tailored to a range of factors, including the following:

CGI clients value our ability to provide a blended global delivery model

“CGI is the global partner of our company, as part of a multi-year application development and maintenance contract covering business applications in supply chain and logistics, marketing and sales, and enterprise performance management. We deliver our services via a blend of onshore, nearshore and offshore delivery options, with several hundred FTEs worldwide, in a co-management framework. This innovative, best-in-class governance model provides the highest level of collaboration and intimacy, promoting entrepreneurship and enabling our long-lasting, value-driven partnership to thrive.”
