

Blockchain solutions for digital acceleration

We see organizations looking to the benefits of blockchain to promote trust in accuracy of data and transactions, increase business efficiencies, and reduce risk by eliminating fraud. CGI helps organizations harness the power of blockchain technology across industry segments, bringing expertise in designing and implementing blockchain solutions.

Blockchain technology is growing in use and applicability across industries. It is not all about blockchain, however – AI, robotics, IoT sensors, and edge computing all work together with blockchain in solving business problems. We see global standards developing as blockchain transforms into more of a network of networks, bringing together information, automation, and intelligence.

DELIVERING BLOCKCHAIN TO ACCELERATE YOUR DIGITAL JOURNEY

We create, deliver, optimize and manage blockchain solutions through our network, governance and operations offerings. From strategy and governance to network management, CGI brings the domain expertise to deliver transformative blockchain solutions for business and government. Our solutions include:

- **Blockchain education** – We provide guidance sessions for clients in all industries and sectors. Our network of experts have deep experience delivering thought leadership and strategic studies on blockchain and distributed ledger technology (DLT) use in banking, government, energy and utilities sectors.
- **Blockchain industry use case builder** - We work closely with clients to apply our unique methodology to create and test use cases for blockchain application across industries. We maintain an agnostic stance and harness our partnerships with global and industry-specific business development and other organizations, such as R3 consortium, BAFT, ICC, FINRA, and others.
- **Blockchain Proof of Value (PoV)** - We develop your structured use case into a testable solution that demonstrates value. We use client workshops to create the concept and develop the PoV. We apply blockchain protocol knowledge and expertise to identify the right type of solution, including Corda, Hyperledger Fabric, Ethereum, and more.

CGI

Experience the commitment®

WHY CGI?

- Unique blockchain methodology and accelerators
- Partnerships with start-ups and blockchain solution providers (Skuchain, Conpend, Bigchain DB, Microsoft, etc.)
- Deep relationships with potential network participants
- Six onshore and offshore delivery centers with expertise in emerging technology design and development to bring greater value to engagements
- Established relationships with global and industry-specific business development and other organizations (R3 consortium, BAFT, ICC, FINRA, ACT-IAC, GBA etc.)
- Global project portfolio footprint and deep domain expertise across multiple industries and disciplines
- Platform agnostic

INDUSTRY SEGMENTS

- Trade
- Government
- Utilities
- Identity
- Energy
- Financial Services

- **Blockchain scale and governance** - We partner with our clients to develop and implement the business critical services and governance required to participate in blockchain networks. We help clients incubate solutions with our blockchain strategy and governance models.
- **Blockchain ecosystem integration** - We manage and integrate blockchain network partners to ensure the operational effectiveness of the blockchain solution. We have the expertise to integrate blockchain solutions with AI, machine learning, and intelligent automation offerings.

OUR BLOCKCHAIN SOLUTIONS BRING VALUE

- **Business efficiencies:** With the right application, blockchain can bring significant business benefits including increased trust and efficiencies and speed in transactions, reduced spend, and enhanced security and transparency. We bring accelerators to the table to drive even greater efficiencies.
- **Best practices and partnerships:** Clients benefit from CGI's application of best practices and partnerships for cutting-edge solutions that bring the best and latest that blockchain technology has to offer. We have deep partnerships with multiple blockchain providers. Our workshop-based approach brings alignment and strategy to designing blockchain solutions.
- **Fast time to value:** Our rapid solution proof of value (PoV) approach allows clients to test and adjust business concepts and blockchain solutions, leveraging our vast subject matter expertise across industries and technologies.
- **Access to the experts:** Our clients have access to leading blockchain thought leaders and benefit from our expert, agnostic stance in consulting engagements. Our expertise spans industries, including government, utilities, supply chain, financial services, trade, and more.

WHY CGI?

Our world continues to evolve at a rapid pace, and the speed of change is accelerating. Organizations are experiencing the pressure to digitally transform as their stakeholders, leadership, customers and citizens demand more. In response, organizations must create competitive products and services quickly. Innovation and collaboration are critical business capabilities that leverage emerging technologies to create new business models, products and services. CGI has the talent, scale, reach and end-to-end services to help clients link emerging technologies with legacy systems and processes to succeed with their digital transformation efforts. We meet clients where they are, and get them where they need to be.

ABOUT CGI

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. Operating in hundreds of locations across the globe, CGI delivers an end-to-end portfolio of capabilities, from IT and business consulting to systems integration, outsourcing services and intellectual property solutions. CGI works with clients through a local relationship model complemented by a global delivery network to help clients achieve their goals, including becoming customer-centric digital enterprises.
