

CGI Ratabase

CGI

Experience the commitment®

Pricing and product innovation are keys to success for insurance carriers in an increasingly disrupted marketplace.

Put the best tool available in the hands of your business, allowing your products to change as fast as the market does.

RATABASE IS THE “GOLD STANDARD” IN INSURANCE RATING

- More successful installations than any other solution in the industry (100+), with companies ranging in size from large global carriers to small regional carriers
- The highest customer satisfaction scores of any vendor, averaging 9.7 out of 10
- Quick implementation times and a 95%+ success rate in project delivery
- Customer teams are self-sufficient after the first benchmark product / state

THE FEATURES YOU NEED TO INNOVATE

POWERFUL, AWARD-WINNING

Ratabase is the number one solution for rating in insurance worldwide. It helps you to:

- **Save:** Reduce the effort and cost to maintain rating and rules.
- **Sprint:** Move your business from a walk to a run by speeding time to market and quickly pivot to meet changing conditions.
- **Simplify:** Build once and deploy to any environment (PC, cloud or mainframe).
- **Spark:** Innovate with a rating engine that can handle any pricing scenario, no matter how complex.

JOIN CARRIERS RECEIVING REAL BENEFITS

With Ratabase, carriers receive measurable benefits right out of the gate. Here are some examples:

- Carriers see significant growth. Ratabase helps improve the accuracy of their pricing and allows them to develop unique products in crowded markets.
- Affordable license models allow all carriers (large or small) to use the “best in the business” tools at a reasonable cost. Carriers can even avoid the high cost of replacing their policy administration systems by using Ratabase to innovate rules and rating.
- Using our “build once / deploy anywhere” model and business-friendly tools, carriers save 50% or more on rating maintenance costs and see up to a 75% improvement in the time needed to implement changes.
- Carriers spur technical innovation by moving rate and rule maintenance from IT to the business, allowing IT teams to focus on new development instead of rewriting rating code.
- Thanks to Ratabase’s scalability and performance, carriers increase the size of their books of business and size of individual policies. For example, Ratabase quickly rates both single policies with a large number of rating items (vehicles, locations, etc.) and large volumes of policies. (Benchmarked as high as 3.8 million transactions per hour).
- With Ratabase University, carriers reduce staff attrition and improve employee morale, since rate maintenance is now a valued career path instead of a technical chore.

ABOUT CGI

Founded in 1976, CGI is one of the world’s largest IT and business consulting services firms. We help clients achieve their goals, including becoming customer-centric digital organizations, through high-end IT and business consulting, systems integration and outsourcing services combined with a unique client proximity model and global center of excellence network.
