Momentum® Acquisitions

The proven solution to modernize DOD acquisitions

As Department of Defense (DOD) agencies move to sunset the enterprise-wide Standard Procurement System (SPS), they can proactively define streamlined business processes and leverage a proven, state-of-the-art COTS solution to transform their procurement operations.

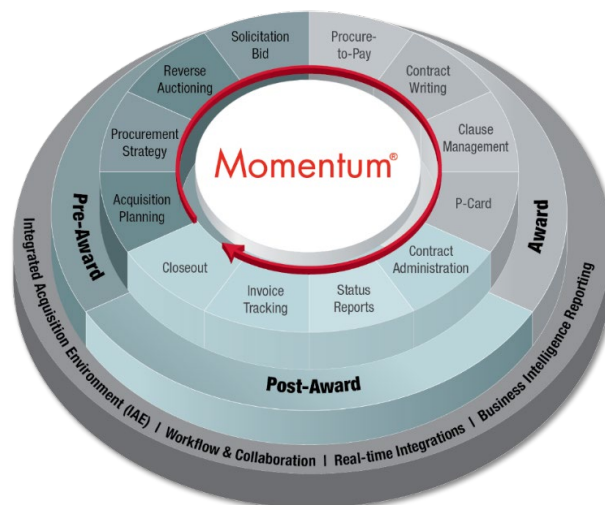

Both the Army and Navy have selected Momentum Acquisitions as their competitively procured contract writing replacement for SPS! CGI's Momentum Acquisitions is uniquely qualified to provide DOD with a federal procurement system that has been successfully implemented in support of agency missions worldwide. Of large agencies using the Momentum COTS solution, 100 percent do so with no customizations.

Specifically designed for the federal government, Momentum Acquisitions goes beyond basic contract writing capabilities, supporting the entire end-to-end procurement lifecycle. It features design principles such as configurability and interoperability to support emerging DOD requirements, reduce total lifecycle costs, reduce risk, and increase user acceptance.

With this Defense Federal Acquisition Regulation (DFAR) compliant solution, DOD agencies can manage contracts from initial planning and sourcing through closeout.

MOMENTUM ACQUISITIONS SUPPORTS END-TO-END PROCUREMENT LIFECYCLE PROCESSES

Momentum Acquisitions supports all stages of the acquisition lifecycle, enabling team collaboration using an electronic contract file throughout all acquisition phases with the following capabilities:

MOMENTUM—THE IDEAL SOLUTION FOR FEDERAL AGENCIES

Built for the Federal Government: CGI's Momentum solution is specifically designed around the nuances of federal regulations, unlike many other commercial ERP solutions.

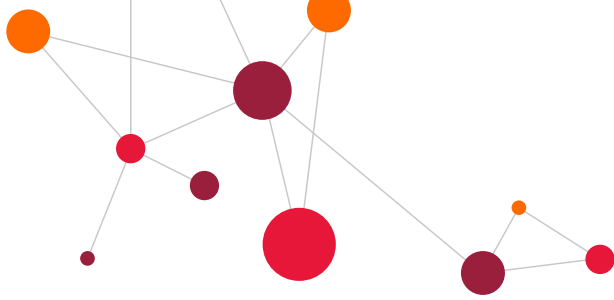

Agency-Driven Innovation: Through the use of agency-run Momentum User Groups, User Forums and sprint demonstrations, CGI tailors Momentum based on input from its users and stakeholders.

Component Functionality for Incremental Implementation: Add modules to rapidly expand capabilities as your business needs evolve.

Shared and Flexible Models: Momentum offers a variety of deployment models including shared service implementation, license and maintenance models and software-as-a-service hosted delivery.

PRE-AWARD

- Pre-award procurement phases, including acquisition planning, requisitioning, preparing and posting notices and solicitations, and receiving and evaluating vendor offers
- PRDS schema support
- Workload management and milestone tracking
- Access management for sensitive attachments
- Intelligent clause engine automatically recommends the FAR, DFAR and agency-specific clauses pertinent to the procurement
- Electronic submission of vendor proposals, reps & certs, and clause fill-ins through a vendor portal where proposals are automatically routed to the Contract Specialist and Contracting Officer
- Source selection workflows to manage SSEB findings, ratings, and Evaluation Notices

AWARD

- Support for simplified purchases, complex contracts, travel, and purchase card procurements; allows for complex pricing structures, including options, fees, and quantity price breaks
- PDS schema support
- Streamlined award generation; pulls pricing information from the proposal and CLIN structure and terms and conditions from the solicitation, increasing data accuracy
- Out-of-the-box interfaces with SAM, FPDS-NG, FedBizOps, and Grants.gov minimizing data entry and streamlining the overall award process
- Standard or agency-specific forms
- Attachment routing workflow and review
- End-to-end purchase and travel card management, tracking transactions, reconciling card activity with bank statements, and generating payments

POST-AWARD

- Comprehensive contract administration functions, including issuing orders, executing modifications, and conducting closeout activities
- Support for concurrent and mass modifications
- Recording receipt and acceptance of CDRLs
- Management of receipts, accruals, invoices, and payments
- Creation and tracking of vendor performance evaluations
- Management of protests and disputes
- Link activity through the contract file, allowing traceability and visibility into the full contract status
- Online, real-time reporting and querying capabilities, including formatted and ad-hoc reporting, to track the each procurement from inception through closeout
- Ability to manage contract closeout process for awards and orders, including the ability to automatically close out contracts as desired, capture closeout history, and archive records
- DOD STD-5015.2 V3 compliant solution for retention, tracking, storage, closeout, archiving and destruction of official files to support import, edit and file protections for attachments

ABOUT CGI

Founded in 1976, CGI is one of the largest IT and business consulting services firms in the world.
