CGI
Experience the commitment®

Since 1976, CGI has partnered with the U.S. federal government to support a wide variety of organizations and unique missions. Through a deep understanding of clients' goals, we assist in managing evolving challenges, providing consultative insights and developing technical, functional and managerial solutions to help leverage and modernize investments that improve outcomes and maximize results.

A CLIENT-CENTRIC, PARTNERSHIP APPROACH

We have the mission understanding and technical expertise to help deliver results.

- **Federal government mission expertise**—We understand the mission and the challenges facing all our government clients. We can help implement solutions that improve outcomes and maximize results.
- **Quality process and framework**— We provide high-level consulting and technical services employing ISO 9001 and CMMI (Level 3 or higher) standards and processes. Leveraging these certified processes, our delivery excellence has allowed us to produce superior results, maintaining client satisfaction.
- **Flexible delivery options**—We combine client-site, or near client-site responsiveness, coupled with cost-effective remote delivery capabilities using expertise from our state-of-the-art on-shore centers of excellence.
- **Technology independence**—We focus on selecting the most appropriate combination of products, services and solutions that effectively resolve our client's unique challenges.
- **Client-proximity model**—We organize our operations around specific client locations (allowing us to be deeply rooted in the local communities) and have the ability to provide in-person services, which promotes project success.

FIVE CORE FOCUS AREAS

Technology has changed what people expect of their governments—and how governments expect to deliver services to their citizens. CGI has been at the forefront of helping government clients stay ahead of the performance curve through world-class program support, prioritizing and focusing on five core areas:

- **Digital Transformation**—We help federal clients transform their operations, modernizing or replacing existing systems to fundamentally improve the way clients meet their mission goals. Key Digital Transformation solutions include robotic process automation, blockchain, IT enabled business process reengineering, intelligent automation, cloud and hybrid IT, data analytics, devops, agile and more.
- **Federal Workforce of the Future**—We enable federal leaders to overcome workforce challenges by employing effective mission-focused solutions, coupled with our expertise in change management, data analysis, knowledge transfer, training and process redesign.
- **Operational Excellence**—In an era of fiscal constraints and heightened expectations, we provide the tools and expertise necessary to advance performance effectiveness in the most cost-effective manner, through improved transparency, accuracy and overall efficiency. Key solutions delivering operational excellence include financial management
