End-to-end Solution

Wherever an organization may be in its level of cloud adoption and transformation, CGI Unify360 can help with:

- **Strategy & Transformation Consulting Services:** Expert guidance with strategy, applications, data and infrastructure for transitioning to a hybrid IT environment.
- **Hybrid IT Management Platform:** Integrated self-service platform for operating, securing and governing all elements of a hybrid IT environment.
- **Unified Hybrid IT Managed Services:** Full spectrum of managed services to support day-to-day service management and mitigation.
- **Hybrid Infrastructure Services:** Cloud and traditional infrastructure offerings based on client needs.

CGI Unify360 HYBRID IT OFFERING FRAMEWORK

Transforming Enterprises through Hybrid IT Adoption

CGI

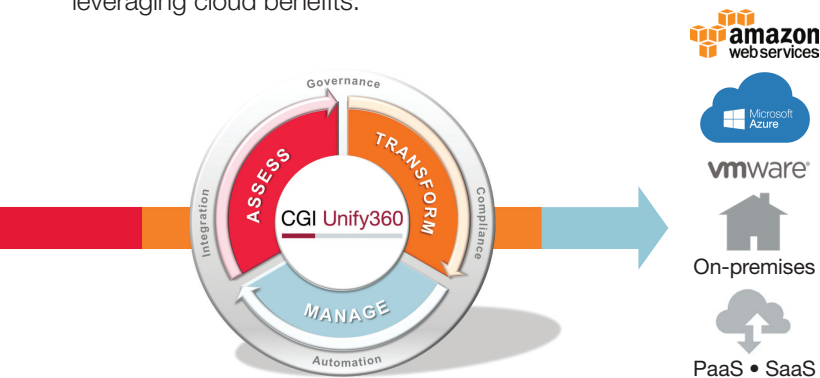

Experience the commitment®

Three Steps to Hybrid IT Adoption

Migrating to the cloud may seem like an entirely technical challenge, but critical client missions require an approach with a clear line of sight between the technical solution and business value.

CGI Unify360 delivers end-to-end hybrid IT transformation through a 3 step process designed to capture and aggregate business and operational requirements, translating them into technical requirements to architect feasible solutions leveraging cloud benefits.

Assess

STEP 1

Set the stage for success with extended analyses and a top-down and bottom-up approach to capture IT portfolio inventories and dependencies.

Prioritize transformation options, and design tailored roadmaps, business cases and detailed action plans.

PROVEN METHODOLOGY

Transform

STEP 2

Create a migration schedule, execute individual transformation projects and operationalize and automate migration processes with continuous improvement methodologies. Transition into service management and support models (steady state) to manage new cloud technical and business processes.

Transformation Engine

A POWERFUL TOOLKIT

Manage

STEP 3

After stabilizing the new environment and transitioning steady state support to the operational team, you are then free to manage your new hybrid environment with the CGI Unify360 Platform, a consolidated self-service user portal built to government and industry standards.
