Description of CGI’s Business

Mission, Vision and Strategy

The mission of CGI is to help its clients succeed through outstanding quality, competence and objectivity, providing thought leadership and delivering the best services and solutions to fully satisfy client objectives in information technology ("IT"), business processes, and management. In all we do, we are guided by our dream and living by our values to foster trusted relationships and meet our commitments now and in the future.

CGI is unique in that our vision is based on a dream: “To create an environment in which we enjoy working together and, as owners, contribute to building a company we can be proud of.” This dream has motivated us since our founding in 1976 and drives our vision: “To be a global, world-class end-to-end IT and business consulting services leader helping our clients succeed.”

In pursuing our dream and vision, CGI has been highly disciplined throughout its history in executing a “Build and Buy” profitable growth strategy comprised of four pillars that combine profitable organic growth (Build) and accretive acquisitions (Buy):

- Pillar 1: Win, renew and extend contracts;
- Pillar 2: New large managed IT and business process services contracts;

These first two pillars relate to driving profitable organic growth through the pursuit of contracts with new and existing clients in our targeted industries. Successes in these pillars reflect the strength of our end-to-end portfolio of capabilities, the depth of expertise of our consultants in business and IT and the appreciation of the proximity model by our clients, both existing and potential.

- Pillar 3: Metro market acquisitions; and
- Pillar 4: Large, transformational acquisitions.

The third pillar focuses on growth through metro market acquisitions, complementing the proximity model, helping provide a fuller range of end-to-end services. We identify metro market acquisitions through a strategic qualification process that systematically searches for targets to strengthen our proximity model, leveraging strong local relationships with customers, and enhancing our industry expertise, services and solutions.

We also pursue large acquisitions to further expand our geographic presence and critical mass, which enables us to compete for large managed IT and business process services contracts and broaden our client relationships. CGI will continue to be a consolidator in the IT services industry by being active on both of these last pillars.

Executing Our Strategy

CGI’s strategy is executed through a unique business model that combines client proximity with an extensive global delivery network to deliver the following benefits:

- Local relationships and accountability: We live and work near our clients to provide a high level of responsiveness, partnership, and innovation. Our local CGI members speak our clients’ language, understand their business environment, and collaborate to meet their goals and advance their business;

- Global reach: Our local presence is complemented by an expansive global delivery network that ensures our clients have 24/7 access to best-fit digital capabilities and resources to meet their end-to-end needs. In addition, clients benefit from our unique combination of industry domain and technology expertise within our global delivery model;

- Committed experts: One of our key strategic goals is to be our clients’ partner and expert of choice. To achieve this, we invest in developing and recruiting professionals with extensive industry, business and in-demand technology expertise. In addition, CGI consultants and other professionals are also owners through our Share Purchase Plan, which, combined with the Profit Participation Plan, provide an added level of commitment to the success of our clients;

- Comprehensive quality processes: CGI’s investment in quality frameworks and rigorous client satisfaction assessments has resulted in a consistent track record of on-time and within-budget project delivery. With regular reviews of engagements and transparency at all levels, the company ensures that client objectives and its own targets are consistently followed at all times. This thorough process enables CGI to generate continuous improvements for all stakeholders by applying corrective measures as soon as they are required; and
• Corporate responsibility: Social Responsibility is one of CGI’s core values. Our business model is designed to ensure that we are close to our clients and communities. At CGI, our members embrace our responsibilities to contribute to the continuous improvement of the economic, social and environmental well-being of the communities in which we live and work.

Applied Innovation

At CGI, innovation happens across many interconnected fronts. It starts in our everyday work on client projects, where thousands of innovations are applied daily. Through benchmark in-person interviews we conduct each year, business and technology executives share their priorities with us, informing our own innovation investments and driving our client proximity teams’ focus on local client priorities. We also turn ideas into new business solutions through our “Innovate, Collaborate and Evolve” program which incubates proximity team innovations into scalable, replicable solutions for global application.

Since 1976, CGI is a trusted partner in delivering innovative, client-inspired business services and solutions. We help develop, innovate and protect the technology that enables clients to achieve their digital transformation goals faster, with reduced risk and enduring results. Through our day-to-day project engagements as well as global programs and investments, CGI partners with clients to generate practical innovations that are replicable and scalable, followed by the delivery of measurable results.

Markets for CGI’s Services

CGI has long standing and focused practices in all of its core industries, providing clients with a partner that is not only an expert in IT, but also an expert in their industries. This combination of business knowledge and digital technology expertise allows us to help our clients adapt with shifts in market dynamics and changing consumer and citizen expectations. In the process, we evolve the services and solutions we deliver within our targeted industries.

Our targeted industries include: communications, financial services, government, health & life sciences, manufacturing, oil & gas, retail & consumer services, transportation, post & logistics and utilities. While these represent our go-to-market industry
targets, we group these industries into the following for reporting purposes: government; manufacturing, retail & distribution (“MRD”); financial services; communications & utilities; and health.

As the move toward digitalization continues across industries, CGI partners with clients to help guide them in becoming customer and citizen-centric digital organizations.

**Intangible Properties**

We own and use various intangible assets that include, without limitation, brand names, trademarks, patents and patent applications, copyrights and copyrighted material, trade secrets, domain names, customer lists, know-how, tools, techniques, software, processes and methodologies. We derive value through the use of these assets in our business activities and they are central to our operations.

Our success depends, in part, on our ability to protect our proprietary intangible assets that we use to provide our services. We rely on a combination of contractual and licensing agreements and trademark, copyright, trade secret and patent laws to protect these assets against infringement.

Our general practice is to pursue trademark, patent, copyright or other appropriate IP protection that is timely and necessary to protect and leverage our intellectual assets for the longest possible period. We will continue to seek IP protection for our technology, software, methodologies, processes, know-how, tools, techniques and other proprietary information throughout the various countries within which CGI operates.

**Human Resources**

As of September 30, 2019, CGI had approximately 77,500 members. In order to encourage the high degree of commitment necessary to provide quality and continuity of client service, CGI offers its members the right to acquire Class A Shares pursuant to a Share Purchase Plan. Among the countries in which we currently offer our Share Purchase Plan, approximately 62,000 of our members own Class A Shares. The Company also has a Profit Participation Plan, a short-term incentive plan that pays an annual cash bonus based on achievement of performance objectives and designed to provide CGI’s management and members with an incentive to increase the profitability and growth of the Company.

**Specialized Skills and Knowledge**

The skills, expertise and competencies required by clients in the IT industry are constantly evolving. CGI strives to be one step ahead and adopts a proactive approach, not only by recruiting engaged and skilled professionals but, more importantly, by developing and retaining them to meet our clients’ needs. In addition to training and development activities and participation in professional associations, our talent management strategy includes stretch project assignments (local and abroad), job shadowing, coaching, mentoring and access to leadership and core competencies development programs through CGI’s Leadership Institute. Over the years, we have put in place multiple initiatives to meet our clients’ needs, fulfill our business plans, and maintain and develop professionals of very high calibre for the benefits of our clients, members and shareholders.

‡ indicates locations where CGI operates delivery centers.

All of CGI's offices are located in rented premises with the exception of the following properties, which are owned by CGI: one property in Belton, Texas; one property in Lebanon, Virginia; one property in Phoenix, Arizona; one property in Montreal, Quebec; one property in Mississauga, Ontario; one office building in Mumbai, India, that is built on land that we lease; one property in Odívelas, Portugal; one property in Bromölla, Sweden; and one property in Bridgend, U.K.
Commercial Alliances

CGI currently has commercial alliance agreements with various business partners. These non-exclusive commercial agreements with hardware and software providers allow the Company to provide its clients with high quality technology, often on advantageous commercial terms for our clients. CGI’s business partners include prominent hardware and software providers.

Quality Processes

CGI holds ISO quality certification for the management of its partnerships with each of its three major stakeholder groups: clients, members and shareholders.

CGI’s ISO 9001 certified operations that are reflected in its Client Partnership Management Framework, its Member Partnership Management Framework and its Shareholder Partnership Management Framework greatly contribute to clearly defining clients’ objectives, properly scoping projects and identifying and allocating necessary resources to meet objectives. Together, these frameworks allow CGI to more efficiently build clients’ requirements into its solutions: clients are constantly kept informed, their degree of satisfaction is regularly measured and assessed and members’ interests are kept aligned with those of CGI’s clients and shareholders by providing incentive compensation to managers linked to CGI’s results and creating value through share ownership.

The Company began working towards obtaining ISO 9001 certification for the portion of its operations covered by its Project Management Framework (which now forms part of its Client Partnership Management Framework) in 1993 and CGI’s Quebec City office was granted ISO 9001 certification in June 1994, which allowed CGI to become North America’s first organization in the IT consulting field to receive ISO 9001 certification for the way in which it managed projects. Beginning in 1995, CGI expanded its ISO 9001 certification throughout its Canadian, U.S. and international offices as well as its corporate headquarters. Over the past several years, in the context of CGI’s high growth rate, its ISO certified quality system has been a key ingredient in spreading its culture, in part because it helps to integrate new members successfully, and in maintaining a high degree of quality of services by applying the same processes into each business unit.

As clients grow and IT projects become increasingly complex, CGI strives to further refine its quality processes while allowing them to branch out across all its activities. CGI’s enhanced quality system is simpler and provides the Company’s business units with greater autonomy in a context of decentralized activities. Over the years, CGI has also obtained additional ISO certifications and other appraisals, including ISO 27001 certification, which supports its strong information security management system, in more than 90 locations, and CMMI Level 5 certification, which supports its application management and infrastructure management services in its India global delivery centers. Some of CGI’s strategic business units maintain additional ISO certifications in accordance with local requirements, including: ISO 20000 – Information technology – Service management; ISO 14001 – Environmental management system; ISO 22301 – Business continuity management system; and ISO 50001 – Energy management system.

The IT Services Industry

Trends and Outlook

CGI intends to continue executing on its “Build and Buy” growth strategy, expanding both through profitable organic growth (Build) and through accretive acquisitions (Buy). Today more than ever, government and commercial organizations across industries rely on technology as a core part of their business model and to drive change. Any new service, program or efficiency improvement implemented as part of these changes brings a need for additional IT services.

As part of our annual strategic planning activities during the fiscal year ended September 30, 2019, we held over 1,550 face-to-face client interviews with business and technology executives across our targeted industries in regions in which CGI operates.

Once again this year, meeting customer and citizen expectations for digital services remains the most impactful industry trend for client executives across industries. IT modernization and integration is now second in terms of impact, rising significantly from 2018. IT modernization and becoming digital are both also among the top IT and business priorities, reflecting a strong theme among executives globally.

In line with these trends and priorities is a continued focus on enterprise-wide digital strategies. While 96% of interviewed executives cited having a digital strategy in place at some level, just 39% indicated those strategies are defined for the entire enterprise, and 18% are working to extend their enterprise strategies to their supply chain or ecosystem. Only 10% of interviewed executives reported that they are producing results from a digital strategy at the enterprise level. Delivering on this demand and helping clients achieve the business results they need requires significant investments in scale, reach, and capabilities to support clients everywhere they are around the world.
These trends continue to present opportunities that CGI has successfully exploited in the past. We believe that the potential for end-to-end IT and business services and solutions – including strategic IT and business consulting, systems integration, managed IT and business process services, and IP – to help organizations accelerate their performance remains strong.

As part of our annual client interviews, CGI analyzes spending on IT and business process services in Canada, the U.S., the U.K. and Europe. As the digital transformation of industries expands and as our clients develop and implement enterprise-wide digital strategies, spending patterns continue to change. Our interviews indicate that clients in each of our targeted industries again plan to increase or maintain their IT spend and are planning to re-balance their budgets to spend more on new applications and reduce legacy costs. Over a three-year period, our interviews indicate that clients plan to increase the allocation of their budgets to new projects. We believe this indicates a large untapped potential market for our end-to-end services and solutions.

Competitive Environment

In today’s digital era, there is a competitive urgency for organizations across industries to become digital in a sustainable way. The pressure is on to modernize legacy assets and connect them to digital business and operating models. Central to this massive transformation is the evolving role of technology. Traditionally viewed as an enabler, technology is now recognized as a driver of business transformation. The promise of digital creates an enormous opportunity to transform organizations end-to-end, and CGI is well-positioned to serve as a digital partner and expert of choice. We are working with clients across the globe to implement digital strategies, roadmaps and solutions that revolutionize the customer/citizen experience, drive the launch of new products and services, and deliver efficiencies and cost savings.

As the demand for digitalization increases, competition within the global IT industry is intensifying. CGI’s competition comprises a variety of players; from metro market companies providing specialized services and software, to global, end-to-end IT service providers, to large consulting firms and government pure-play firms. All of these players are competing to deliver some or all of the services we provide.

Many factors distinguish the industry leaders, including the following:

- Depth and breadth of industry and technology expertise;
- Local presence and strength of client relationships;
- Consistent, on-time, within-budget delivery everywhere the client operates;
- Breadth of digital IP solutions;
- Ability to deliver practical innovation for measurable results;
- Total cost of services and value delivered; and
- Unique global delivery network, including onshore, nearshore and offshore options.

CGI is one of the leaders in the industry with respect to all of these factors. We are not only delivering all of the capabilities clients need to compete in a digital world, but also the immediate results and long-term value they expect. As the market dynamics and industry trends continue to increase demand for enterprise solutions from global, end-to-end IT and business consulting services firms, CGI is one of few firms with the scale, reach, and capabilities to meet clients’ enterprise needs.

Significant Developments of the Three Most Recent Fiscal Years

Key Performance Measures

The Company reports its financial results in accordance with International Financial Reporting Standards (“IFRS”). However, we use a combination of financial measures, ratios, and non-generally accepted accounting principles (“non-GAAP”) measures to assess the Company’s performance. The non-GAAP measures used to report our financial results do not have any standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other issuers. These measures should be considered as supplemental in nature and not as a substitute for the related financial information prepared in accordance with IFRS.

The table below summarizes our non-GAAP measures and most relevant key performance measures used in this Annual Information Form:

**Profitability**

- *Adjusted EBIT (non-GAAP)* – is a measure of earnings excluding acquisition-related and integration costs, restructuring costs, net finance costs and income tax expense. Management believes this measure is useful to investors as it best reflects the performance of the Company’s activities and allows for better comparability from period to period as well as to trend analysis. A reconciliation of the adjusted EBIT to its closest IFRS measure can be found in section 3.7 of CGI’s MD&A for the fiscal year ended September 30, 2019.
Adjusted EBIT margin (non-GAAP) – is obtained by dividing our adjusted EBIT by our revenues. Management believes this measure is useful to investors as it best reflects the performance of its activities and allows for better comparability from period to period as well as to trend analysis. A reconciliation of the adjusted EBIT to its closest IFRS measure can be found in section 3.7 of CGI’s MD&A for the fiscal year ended September 30, 2019.

Net earnings – is a measure of earnings generated for shareholders.

Diluted earnings per share (diluted EPS) – is a measure of earnings generated for shareholders on a per share basis, assuming all dilutive elements are exercised.

Net earnings excluding specific items (non-GAAP) – is a measure of net earnings excluding acquisition-related and integration costs, restructuring costs and tax adjustments. Management believes this measure is useful to investors as it best reflects the Company’s performance and allows for better comparability from period to period. A reconciliation of the net earnings excluding specific items to its closest IFRS measure can be found in section 3.8.3 of CGI’s MD&A for the fiscal year ended September 30, 2019.

Diluted earnings per share excluding specific items (non-GAAP) – is defined as the net earnings excluding specific items on a per share basis. Management believes that this measure is useful to investors as it best reflects the Company’s performance on a per share basis and allows for better comparability from period to period. The diluted earnings per share reported in accordance with IFRS can be found in section 3.8 of CGI’s MD&A for the fiscal year ended September 30, 2019, while the basic and diluted earnings per share excluding specific items can be found in section 3.8.3 of CGI’s MD&A for the fiscal year ended September 30, 2019.

Liquidity

Cash provided by operating activities – is a measure of cash generated from managing our day-to-day business operations. Management believes strong operating cash flow is indicative of financial flexibility, allowing us to execute the Company’s strategy.

Days sales outstanding (“DSO”) (non-GAAP) – is the average number of days needed to convert our trade receivables and work in progress into cash. DSO is obtained by subtracting deferred revenue from trade accounts receivable and work in progress; the result is divided by our most recent quarter’s revenue over 90 days. Management tracks this metric closely to ensure timely collection and healthy liquidity. Management believes this measure is useful to investors as it demonstrates the Company’s ability to timely convert its trade receivables and work in progress into cash.

Growth

Constant currency growth (non-GAAP) – is a measure of revenue growth before foreign currency impacts. This growth is calculated by translating current period results in local currency using the conversion rates in the equivalent period from the prior year. Management believes that it is helpful to adjust revenue to exclude the impact of currency fluctuations to facilitate period-to-period comparisons of business performance and that this measure is useful to investors for the same reason.

Backlog (non-GAAP) – includes new contract wins, extensions and renewals (bookings (non-GAAP)), adjusted for the backlog consumed during the period as a result of client work performed and adjustments related to the volume, cancellation and the impact of foreign currencies to our existing contracts. Backlog incorporates estimates from management that are subject to change. Management tracks this measure as it is a key indicator of management’s best estimate of contracted revenue to be realized in the future and believes that this measure is useful to investors for the same reason.

Book-to-bill ratio (non-GAAP) – is a measure of the proportion of the value of our bookings (non-GAAP) to our revenue in the period. This metric allows management to monitor the Company’s business development efforts to ensure we grow our backlog (non-GAAP) and our business over time and management believes that this measure is useful to investors for the same reason. Management remains committed to maintaining a target ratio greater than 100% over a trailing twelve-month period. Management believes that monitoring the Company’s bookings over a longer period is a more representative measure as the services and contract type, size and timing of bookings could cause this measurement to fluctuate significantly if taken for only a three-month period.
Capital Structure

Net debt (non-GAAP) - is obtained by subtracting from our debt our cash and cash equivalents, short-term investments, long-term investments and fair value of foreign currency derivative financial instruments related to debt. Management uses the net debt metric to monitor the Company’s financial leverage and believes that this metric is useful to investors as it provides insight into our financial strength. A reconciliation of net debt to its closest IFRS measure can be found in section 4.5 of CGI’s MD&A for the fiscal year ended September 30, 2019.

Net debt to capitalization ratio (non-GAAP) - is a measure of our level of financial leverage and is obtained by dividing the net debt (non-GAAP) by the sum of shareholder’s equity and debt. Management uses the net debt to capitalization ratio to monitor the proportion of debt versus capital used to finance the Company’s operations and to assess its financial strength. Management believes that this metric is useful to investors for the same reasons.

Return on equity (“ROE”) (non-GAAP) - is a measure of the rate of return on the ownership interest of our shareholders and is calculated as the proportion of net earnings for the last 12 months over the last four quarters’ average equity. Management looks at ROE to measure its efficiency at generating net earnings for the Company’s shareholders and how well the Company uses the invested funds to generate net earnings growth and believes that this measure is useful to investors for the same reasons.

Return on invested capital (“ROIC”) (non-GAAP) - is a measure of the Company’s efficiency at allocating the capital under its control to profitable investments and is calculated as the proportion of the net earnings excluding net finance costs after-tax for the last 12 months, over the last four quarters’ average invested capital, which is defined as the sum of equity and net debt. Management examines this ratio to assess how well it is using its funds to generate returns and believes that this measure is useful to investors for the same reason.

Acquisitions

During the fiscal year ended September 30, 2019, the Company made the following acquisitions through its subsidiaries:

- On October 11, 2018, the Company acquired all of the outstanding shares of ckc AG ("ckc"), for a purchase price of $21 million (€13.9 million). ckc was a specialized provider of agile software development and management services, with a focus on the automotive sector, headquartered in Brunswick, Germany. This acquisition added approximately 300 professionals and annualized revenues of approximately €30 million to the Company.
- On April 16, 2019, the Company acquired control of Acando AB ("Acando") under a tender offer for a total offer value of approximately $647 million (SEK 4,491 million). Acando was a consulting services firm with strategic consulting, system integration and customer-centric digital innovation capabilities, headquartered in Stockholm, Sweden, with additional offices in Finland, Norway, Germany and Latvia. This acquisition added approximately 2,100 professionals and annualized revenues of approximately $400 million to the Company, before considering divestitures in the range of 5%-10%.
With significant strategic consulting, system integration and customer-centric digital innovation capabilities, these acquisitions were made to complement the Company's proximity model and expertise across key sectors, including manufacturing, retail and government.

- On June 14, 2019, the Company announced a cash offer of approximately $131 million to acquire all outstanding shares of SCISYS Group Plc (“SCISYS”). The transaction is expected to be completed by the end of calendar 2019. SCISYS operates in several sectors, with deep expertise and industry leading solutions in the space and defense sectors, as well as in the media and broadcast news industries and is headquartered in Dublin, Ireland. This acquisition would add approximately 670 professionals predominantly based in the UK and Germany and annualized revenues of approximately £58.4 million to the Company.

**Long-Term Debt**

On November 5, 2019, the unsecured committed revolving credit facility of $1,500 million of the Company was extended by one year to December 2024 and can be further extended. There were no material changes in the terms and conditions.

During the fiscal year ended September 30, 2019, we drew $139.6 million under the unsecured committed revolving credit facility and we entered into a five-year unsecured committed term loan credit facility of $670 million (swapped into euro currency). The proceeds of the credit facility and term loan were used to repay the scheduled repayments of the senior unsecured notes of the Company in the amount of $306.8 million, used to invest in business acquisitions and in the purchase for cancellation of Class A Shares.

**Normal Course Issuer Bid**

On January 30, 2019, the Company’s Board of Directors authorized and subsequently received approval from the TSX for the renewal of CGI’s NCIB which allows for the purchase for cancellation of up to 20,100,499 Class A Shares, representing 10% of the Company’s public float as of the close of business on January 23, 2019. Class A Shares may be purchased for cancellation under the current NCIB commencing on February 6, 2019 until no later than February 5, 2020, or on such earlier date when the Company has either acquired the maximum number of Class A Shares allowable under the NCIB or elects to terminate the bid.

During the fiscal year ended September 30, 2019, the Company purchased for cancellation 12,460,232 Class A Shares for $1,126.1 million at a weighted average price of $90.37 under the previous and current NCIB. The purchased shares included 5,158,362 Class A Shares purchased for cancellation from Caisse de dépôt et placement du Québec for cash consideration of $500 million. The purchase was considered within the annual aggregate limit that the Company is entitled to purchase under its current NCIB.

As at September 30, 2019, the Company could purchase up to 13,315,767 Class A Shares for cancellation under the current NCIB.

**Bookings and Book-To-Bill Ratio**

Bookings for the fiscal year ended September 30, 2019 were $12.6 billion representing a book-to-bill ratio of 104.4%. Of the $12.6 billion in bookings signed during this year, 33% came from new business, while 67% came from extensions, renewals and add-ons.

The Company’s largest vertical markets for bookings were government, financial services and MRD, making up approximately 31%, 27% and 20% of total bookings, respectively. From a reporting segment perspective, our U.S. Commercial and State Government operating segment accounted for 19% of total bookings, followed by our Northern Europe operating segment at 18% and Western and Southern Europe operating segment at 16%.

Information regarding our bookings is a key indicator of the volume of our business over time. However, due to the timing and transition period associated with managed IT and business process services contracts, the realization of revenue related to these bookings may fluctuate from period to period. The values initially booked may change over time due to their variable attributes, including demand-driven usage, modifications in the scope of work to be performed caused by changes in client requirements as well as termination clauses at the option of the client. As such, information regarding our bookings is not comparable to, nor should it be substituted for, an analysis of our revenue. Management however believes that it is a key indicator of potential future revenue.

**Foreign currency impact**

Foreign currency rate fluctuations unfavourably impacted our revenue by 0.6%. This contrasts with a favourable impact of 1.5% during the fiscal year ended September 30, 2018 and an unfavourable impact of 2.8% during the fiscal year ended September 30, 2017.

During the fiscal year ended September 30, 2018, the Company made the following acquisitions through its subsidiaries:

- The Company acquired 96.7% of the outstanding shares of Affecto Plc (“Affecto”) in October 2017 and the remaining outstanding shares during the three months ended March 31, 2018 for a purchase price of $145 million (€98.5 million). Facilité Informatique was an IT consulting services firm in high-demand digital services across a wide range of industries with a strong local presence in Montreal and Quebec City, headquartered in Montreal, Quebec. This acquisition added more than 350 professionals and annualized revenues of approximately $60 million to the Company.

These acquisitions were made to complement CGI’s proximity model and further strengthen the Company’s global capabilities across several in-demand digital transformation areas.

Long-Term Debt

On November 6, 2018, the unsecured committed revolving credit facility of $1,500 million of the Company was extended by one year to December 2023. There were no material changes in the terms and conditions.

During the fiscal year ended September 30, 2018, we used $101.7 million to reduce our outstanding long-term debt, mainly driven by the first yearly scheduled repayment on a tranche of the Senior U.S. unsecured notes in the amount of $65 million (US$50 million).

Normal Course Issuer Bid

On January 31, 2018, the Company’s Board of Directors authorized and subsequently received the approval from the TSX for the renewal of its NCIB which allowed for the purchase for cancellation of up to 20,595,539 Class A Shares, representing 10% of the Company’s public float as of the close of business on January 24, 2018. Class A Shares could be purchased for cancellation under the renewed NCIB commenced on February 6, 2018 until no later than February 5, 2019, or on such earlier date on which the Company had either acquired the maximum number of Class A Shares allowable under the NCIB or elected to terminate the bid.
During the fiscal year ended September 30, 2018, the Company purchased for cancellation 10,375,879 Class A Shares for approximately $797.9 million, excluding fees, at a weighted average price of $76.90. The purchased shares included 3,634,729 Class A Shares purchased for cancellation from Caisse de dépôt et placement du Québec for a cash consideration of approximately $272.8 million and 3,230,450 Class A Shares purchased for cancellation from Serge Godin, Founder and Executive Chairman of the Board, for a cash consideration of approximately $231.4 million. The purchase from Serge Godin was recommended by an independent committee of the Board of Directors of the Company following the receipt of an external opinion regarding the reasonableness of the terms of the transaction. Both purchases were considered within the annual aggregate limit that the Company was entitled to purchase under the then current NCIB. The NCIB allowed for purchases outside of the facilities of the TSX by private agreements pursuant to exemption orders issued by Canadian securities regulators. Of the 10,375,879 Class A Shares purchased for cancellation, 50,000 Class A Shares purchased for approximately $4.2 million were paid after September 30, 2018.

Important note
The CGI Constitution, including the Dream, Vision, Mission, and Values of the CGI Inc., form the fundamental principles of this Charter. This Charter should therefore be read in conjunction with CGI’s Constitution.

1. INTERPRETATION

“Financially Literate” means the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by the Company’s financial statements.

“Independent Director” means a director who meets the independence criteria set out in sections 1.4 and 1.5 of National Instrument 52-110 Audit Committees adopted by the Canadian Securities Administrators, as amended, which is reproduced in Appendix A.

“Operationally Literate” means having substantial experience in the execution of day to day business decisions and strategic business objectives acquired as a result of meaningful past experience as a chief executive officer or as a senior executive officer in another capacity but with a broad responsibility for operations.

2. OBJECTIVES

CGI’s shareholders are the first and most important element in the Company’s governance structures and processes. At each annual general meeting, the Company’s shareholders elect the members of the Company’s Board of Directors and give them a mandate to manage and oversee the management of the Company’s affairs for the coming year.

In the normal course of operations, certain corporate actions which may be material to CGI are initiated from time to time by the Company’s senior management and, at the appropriate time, are submitted to CGI’s Board of Directors for consideration and approval. When appropriate, such matters are also submitted for consideration and approval by CGI’s shareholders. All such approvals are sought in accordance with the charters of the Board of Directors and standing committees, CGI’s corporate governance practices and applicable corporate and securities legislation.

The overall stewardship of the Company is the responsibility of the Board of Directors. In accomplishing the mandate it receives from the Company’s shareholders, the Board of Directors may delegate certain of its authority and responsibilities to committees and management and reserve certain powers to itself. Nonetheless, it will retain full effective control over the Company.

3. COMPOSITION

3.1 The majority of the Board of Directors shall be comprised of Independent Directors. The application of the definition of Independent Director to the circumstances of each individual director is the responsibility of the Board of Directors which will disclose on an annual basis whether it is constituted with the appropriate number of directors which are Independent Directors and the basis for its analysis. The Board of Directors will also disclose which directors are Independent Directors or not and provide a description of the business, family, direct and indirect shareholding or other relationship between each director and the Company.
3.2 The Company expects and requires directors to be and remain free of conflictual interests or relationships and to refrain from acting in ways which are actually or potentially harmful, conflictual or detrimental to the Company’s best interests. Each director shall comply with the Company’s Code of Ethics and Business Conduct that governs the behaviour of members, directors and officers and shall complete and file annually with the Company any and all documents required pursuant to such code with respect to conflict of interests. This matter will also be reviewed annually by the Corporate Governance Committee. The Board of Directors will monitor compliance with said code as well as with the Company’s Executive Code of Conduct applicable to its principal executive officer, principal financial officer, principal accounting officer or controller, or other persons performing similar functions within the Company. The Board will also be responsible for the review of requests for waivers from compliance with the codes for directors and officers. The Board of Directors will disclose in due time revisions to such codes as well as all waivers and specify the circumstances and rationale for granting the waiver.

3.3 The Board of Directors, following advice of its Corporate Governance Committee, is responsible for evaluating its size and composition and establishing a Board comprised of members who facilitate effective decision-making, have appropriate skills and diverse background. The Company’s target is to have women represent at least 30% of its directors. The Board of Directors has the ability to increase or decrease its size.

3.4 CGI’s corporate governance practices require that all members of CGI’s Board of Directors be both Financially Literate and Operationally Literate. The members of the Board of Directors who serve on the Company’s Audit and Risk Management Committee must be Financially Literate and Operationally Literate in the sense of having the ability to read and understand a set of financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of the issues that can reasonably be expected to be raised by CGI’s financial statements, and otherwise in keeping with applicable governance standards under applicable securities laws and regulations.

3.5 A director who makes a major change in principal occupation will forthwith disclose this fact to the Board of Directors and will offer his or her resignation to the Board of Directors for consideration. It is not intended that directors who retire or whose professional positions change should necessarily leave the Board of Directors. However, there should be an opportunity for the Board of Directors to review the continued appropriateness of the Board of Directors membership under such circumstances.

3.6 The Board of Directors is responsible for approving new nominees to the Board. New directors will be provided with an orientation and education program which will include written information about the duties and obligations of directors, the business and operations of the Company, documents from recent Board of Directors meetings and opportunities for meetings and discussion with senior management and other directors. The details of the orientation of each new director will be tailored to that director’s individual needs and areas of interest. The prospective candidates should fully understand the role of the Board of Directors and its committees and the contribution expected from individual directors and the Board of Directors will ensure that they are provided with the appropriate information to that effect. In addition, the Board of Directors will ascertain and make available to its members, when required, continuing education as per the business and operations of the Company.
4. **RESOURCES**

4.1 The Board of Directors will implement structures and procedures to ensure that it functions independently of management.

4.2 The Board of Directors appreciates the value of having certain members of senior management attend each Board of Directors meeting to provide information and opinion to assist the directors in their deliberations. The Executive Chairman of the Board will seek the Board of Directors' concurrence in the event of any proposed change to the management attendees at Board of Directors meetings. Management attendees will be excused for any agenda items which are reserved for discussion among directors only.

5. **RESPONSIBILITIES AND DUTIES**

The principal responsibilities and duties of the Board of Directors include the following, it being understood that in carrying out their responsibilities and duties, directors may consult with management and may retain external advisors at the expense of the Company in appropriate circumstances. The objective of this review is to increase the effectiveness of the Board of Directors and contribute to a process of continuous improvement in the Board of Directors’ execution of its responsibilities. It is expected that the result of such reviews will be to identify any areas where the directors and/or management believe that the Board of Directors and/or the directors individually could make a better contribution to the affairs of the Company. The Board of Directors will take appropriate action based upon the results of the review process.

Code of Ethics
Code of Ethics

1. Code of Ethics and Business Conduct

for members, officers and directors of CGI

To the CGI Team

This Code of Ethics and Business Conduct is based on the values and philosophy that have guided CGI successfully since the Company's inception in 1976. It constitutes a unique repository where the combination of CGI policies, guidelines, principles of conduct and best practices have been regrouped under one umbrella document, for the benefit of our members, officers and directors.

CGI's operations have grown significantly and now extend worldwide, and our business environment has become increasingly competitive and complex. The scope and pace of our business requires us to make quick and informed decisions, in a manner consistent with our values.

This Code provides guidance - and a global view - for CGI members, officers and directors to consistently achieve the professionalism that has earned our Company an enviable reputation among our clients and within our industry. It also provides guidance for CGI directors when acting for the Company.

This Code is not meant to be a complete list of ethics and business conduct covering every eventuality. It highlights situations that CGI's members, officers and directors may face in their duties and provides the basic principles to guide their actions. CGI recognizes the importance of supporting these individuals as ethical issues arise, and has an open door policy for resolving such issues with integrity.

Upon joining CGI, all members, as part of their employment contract, undertake to observe this Code in all aspects of their work. Furthermore, annually, all members shall renew such undertaking.

We must always behave responsibly and in line with the Company's core values when working on behalf of CGI for its clients and other stakeholders. By preserving our personal integrity and the professional reputation of CGI, I am confident that together we will succeed in achieving the Company's mission and vision.

Serge Godin
Founder and Executive Chairman of the Board
Important note
The CGI Constitution, including the Dream, Vision, Mission, and Values of the CGI Inc. form the fundamental principles of this Code of Ethics and Business Conduct. This Code should therefore be read in conjunction with CGI's Constitution.

1.2. PURPOSE AND SCOPE OF THE CODE

This Code of Ethics and Business Conduct (the “Code”) defines CGI's character and guides the actions and decisions of the salaried employees (“members”), officers and directors of CGI. Compliance with the Code is essential for many reasons and notably to preserve and enhance CGI's reputation and maximize shareholder value. In keeping with CGI's values, the Code outlines the essential rules and guidelines necessary to preserve CGI's enviable reputation among its clients and within its industry. The Code is not meant to be a complete list of ethics and business conduct covering every eventuality. It highlights situations that CGI members, officers and directors may face in their duties. The code is meant to give them a broad and clear understanding of the conduct expected of them, wherever CGI does business. While the specific illustrations are primarily addressed to members, they
should be read as being equally applicable to the members of CGI's Board of Directors to the extent that they may be applicable in the circumstances.

Should a member be confronted with a situation where further guidance is required, the matter should be discussed with the member's manager. CGI recognizes its obligation to support its members, officers and directors as ethical issues arise.

1.3. MEMBER’S CONDUCT AND BEHAVIOUR

General conduct

Upon joining CGI and annually thereafter, all members are by virtue of the “Member Commitment to the Code of Ethics and Business Conduct”, which must be signed where permitted locally, subject to the Company Code of Ethics and Business Conduct and related policies and guidelines.

If a member ceases to be employed by CGI for any reason, the Member Commitment specifies which elements continue to apply, namely those related to the confidentiality obligations.

Respect and integrity

All members of CGI support the Company's philosophy and contribute to CGI's development and good reputation by promoting synergy and teamwork, by expressing their ideas and by adopting the highest standards of service quality and integrity. The members of CGI are its ambassadors. They must always behave responsibly and demonstrate courtesy, honesty, civility and respect for other members of CGI, for its clients and for its suppliers, and must never do anything that could harm CGI's reputation or that could otherwise bring CGI into disrepute.

Loyalty

Members are expected to act at all times with diligence and loyalty towards CGI and in such a way as to safeguard CGI's interests. Members should not act in a way or publicly hold a position that might harm the image or reputation of CGI.

Relations with clients

CGI's services often involve visiting or working at a client's place of business. A member working at a client's site must comply with the client's practices and procedures and treat the client's facilities with respect. The member must work as efficiently and meticulously as possible and leave the client's premises and property as he or she found them. As well, members must use the client's information and systems infrastructures for the sole purpose of the client's contract and protect those infrastructures and information at all times.

Relations with competitors

If a member is working with a competitor of CGI on a joint project for a client, the member must avoid any situations that could cause conflicts. The member must respect the roles that the client has assigned to each party and work as a team in the client's best interests. CGI's members also have both an ethical and a legal responsibility to portray the Company's competitors fairly and accurately. CGI does not tolerate its members using improper means for gathering information about its competitors.
**Maintenance of assets**

All members of CGI have a responsibility to protect CGI's assets against loss, theft, abuse and unauthorized use or disposal. If, in the course of his or her work, a member of CGI is supplied with any property belonging to CGI or to a third party, the member must use said property in accordance with CGI's Security and acceptable use policy, and as may otherwise be specified in the binding agreement he or she signed with CGI the member must use said property solely for work-related purposes as specified in the binding agreement he or she signed upon joining CGI. More specifically, the members must use CGI’s systems infrastructures in a manner consistent with legal requirements, professional ethics, the policies established by the administrators of CGI’s network and of any external networks that the member uses, and must respect the copyrights protecting any software that the member also uses. As well, members must never use the clients’ systems infrastructures, including the clients' software, for any purpose that is not work-related. CGI applies a zero-tolerance policy to any abuse of its systems infrastructures or those of its clients.

At the end of employment, members are required to return all CGI property and assets in their possession to their manager or to a designated CGI representative.

**Health and Safety**

CGI is committed to providing a safe and healthy work environment for all members. Accordingly, members are expected to observe the following rules:

**Drug-Free Workplace**

CGI maintains a drug-free workplace. Accordingly, in the workplace, members may not:

i) Use, sell, or possess illegal drugs;

ii) Abuse or misuse controlled substances, prescription drugs, or over-the-counter medications; or

iii) Abuse alcohol.

**Restrictions on Alcohol Use**

With the exception of specially-authorized CGI functions, no member may consume, serve, or be under the influence of alcohol while on CGI property or while performing CGI business.

Alcohol may be served at CGI functions only with the prior approval of a Senior Vice President. In such circumstances, CGI strongly encourages members to use discretion, act responsibly, and behave in a manner becoming to the Company. When working in parts of the world where alcohol use or possession is prohibited, CGI members must comply with local laws.

**1.4. INTEGRITY OF BOOKS AND RECORDS AND COMPLIANCE WITH SOUND ACCOUNTING PRACTICES**

**Preparation of books and records**

Accuracy and reliability in the preparation of all business records is of critical importance to the decision-making process and to the proper discharge of financial, legal and reporting obligations. All business records, expense accounts, invoices, bills, payroll and member records and other reports are to be prepared with care and honesty. False or misleading entries are not permitted in CGI's books and records.
Financial transactions

All financial transactions are to be properly recorded in the books of account and accounting procedures are to be supported by the necessary internal controls. In turn, all books and records of CGI must be available for audit.

In relation to CGI’s books and records, members must:

- i) not intentionally cause Company documents to be incorrect in any way;
- ii) not create or participate in the creation of any records that are intended to conceal anything that is improper;
- iii) properly and promptly record all disbursements of funds;
- iv) co-operate with internal and external auditors;
- v) report any knowledge of any untruthful or inaccurate statements or records or transactions that do not seem to serve a legitimate commercial purpose; and
- vi) not make unusual financial arrangements with a client or a supplier (such as, over-invoicing or under-invoicing) for payments on their behalf to a party not related to the transaction.

The nature of CGI’s business places special importance on the accuracy of time keeping and expense reporting.

Accurate Timekeeping

Client billing, member compensation, and cost estimating depends on CGI’s ability to record and account for member time worked accurately. Accordingly, CGI is committed to accurate total time accounting and reporting within all of its subsidiaries.

All members are required to comply with CGI’s timekeeping policy and procedures and any applicable contract requirements. Members must record all time worked daily and submit reports weekly, accurately reflecting all time worked on both direct and indirect projects. Managers are responsible for ensuring that members know the correct project code for each project assignment.

Knowingly mischarging your time or falsifying time records violates CGI policy and may also violate the law. No member may knowingly charge time inaccurately or knowingly approve mischarging. Similarly, shifting time worked on one project to another project also is strictly prohibited.

To ensure accurate time reporting, members must be sure that they understand and carefully follow CGI’s timekeeping policy and procedures. Members must obtain the correct charge code before starting work on any new direct or indirect project. If a member has any questions regarding time charging, the question should be raised with their manager. In all cases, members must take the steps necessary to ensure that their time records are current, accurate, and complete.

Expense Reimbursement

Members must honestly and accurately report their business-related expenses for reimbursement. A member’s signature on an expense report certifies that the information provided is complete and accurate and represents a valid business expense.
Breaches
Suspected breaches of the Code which directly or indirectly affect CGI’s business must be reported to the Chief Financial Officer, the Chief Executive Officer or the Chief Legal Officer, or alternatively to the Chair of the Audit and Risk Management Committee and CGI’s Corporate Secretary.

In addition, CGI has established a “whistleblower policy” for incident reporting, the Ethics Reporting Policy, as well as a process under that policy which allows any person who has direct knowledge of specific facts to report incidents where the Company is exposed to a serious risk in matters of accounting, auditing, internal accounting controls, finance, banking or financial corruption. The process in place protects the incident reporter and ensures the confidentiality of the report. See the heading “Compliance with the Code” below.

In addition, this Policy is aimed at preventing directors, officers and members from engaging in activities that, although not illegal, may expose them or the Company to potential reputational risk.

CGI's Policy on Timely Disclosure of Material Information cover the disclosure of information with a material impact, defined as any information that, if disclosed to a potential investor, could affect his or her perception of the value of the Company as an investment. Because CGI is a publicly traded company, any information that may have a material impact on CGI's results or on the perception of the value of the stock must be communicated in accordance with CGI's “Policy on Timely Disclosure of Material Information.” If a member thinks that he or she is in possession of a piece of information that is not known to management and may have a material impact on the Company, the member must communicate it immediately to either the Executive Chairman of the Board, the Chief Executive Officer, the Chief Legal Officer, or the Chief Financial Officer, without divulging it to anyone else.

Client Information
Just as CGI’s members must protect confidential information about CGI, they must also show discretion at all times with regard to the client's business affairs. Unless a member has the client's express authorization, he or she should never reveal any information that could harm the client's interests and should never use any information that he or she obtains in the course of a project or assignment for any purpose other than that project or assignment. If the client restricts the distribution of certain information within its own organization, the member must comply with those restrictions as well.
**Member Information**

Subject to applicable law, CGI collects and maintains personal information relating to its members, including medical and benefits information. Access to such information is restricted to CGI personnel on a need-to-know basis. They must ensure that this information is not disclosed in violation of CGI's policies and practices. Personal information is released to outside parties only with the member's approval, except to satisfy the requirements considered by CGI to be appropriate for legal reasons.

**Intellectual Property**

In the course of their duties, members may develop or create new designs, inventions, systems or processes, products or documents. When these achievements have been made as a direct result of a member's employment with the Company and through use of CGI's resources, they belong to CGI. Moreover, CGI is free to use this work as it so wishes and members cannot use nor divulge, publish or otherwise disseminate it without prior written consent from CGI. Upon request, members will execute documents made necessary to confirm or complete the assignment of rights to CGI.

**Suppliers and Partners Information**

All information on CGI suppliers and partners is also confidential and must not be disclosed without the express consent of the persons concerned.

**Privacy**

CGI must comply with industry practices and applicable laws when processing the personal data of clients, members and third parties. Therefore, any member who processes personal data may only do so in accordance with CGI's privacy policies and processes.

### 1.6. CONFLICTS OF INTEREST

**Definitions**

The members of CGI must avoid any actual or apparent conflicts of interest and should never engage in any conduct which is, or could potentially be, harmful to CGI or its reputation. A conflict of interest exists when a member favours his or her personal interests over those of CGI or its clients or when an obligation or situation arising from a member's personal activities or financial affairs may adversely influence the member's judgement in the performance of his or her duties at CGI.

Particular caution should be taken when dealing with initiatives involving contracts with any governmental or quasi-governmental agency.

**Guidelines**

The following guidelines provide guidance for members to avoid situations which are or may appear to be in conflict with their responsibility to act in the best interest of the Company.

**Financial Interests** - A conflict of interest exists when a member who is able to influence business with CGI (or family or a close personal friend of such member) owns, directly or indirectly, a beneficial interest in an organization which is a competitor of CGI, or which has current or prospective business as a supplier, customer or contractor with CGI. This does not include the situation where the financial interest in question consists of shares, bonds or
other securities of a company listed on a securities exchange and where the amount of this interest is less than one percent of the value of the class of security involved.

**Outside Work** - When a member, directly or indirectly, acts as a director, officer, employee, consultant or agent of an organization that is a competitor of CGI, or which has current or prospective business as a supplier, customer or contractor with CGI, there is a conflict of interest. Similarly, a conflict of interest may exist when a member undertakes to engage in an independent business venture or to perform work or services for another entity should that activity prevent such member from devoting the time and effort to the conduct of CGI's business, which his or her position requires.

**Gifts or Favours** - A conflict of interest will arise when a member, either directly or indirectly, solicits or accepts any gift or favour from any person or organization which is a competitor of CGI, or which has current or prospective business with CGI as a customer, supplier, partner or contractor. For this purpose, a “gift” or “favour” includes any gratuitous service, loan, discount, money or article of value. It does not include articles of nominal value normally used for sales promotion purposes, ordinary and reasonable business meals and entertainment expenses if they have a clear business purpose, are permitted under the anti-corruption laws and local laws, conform to generally accepted local customs and are received in a sporadic manner.

**Commissions** - CGI or its members will never accept any commissions from a third-party vendor when recommending software, hardware or any equipment to a client as part of a service agreement.

**Trading with CGI** - A conflict of interest may exist when a member is directly or indirectly a party to a transaction with CGI.

**Misappropriation of Business Opportunities** - A conflict of interest will exist when a member, without the knowledge and consent of CGI, appropriates for his or her own use, or that of another person or organization, the benefit of any business venture, opportunity or potential opportunity about which the member may have learned or that he or she may have developed during the course of his or her employment.

**Bribes** - Neither CGI nor its members will pay bribes to clients or client representatives to obtain business from them. Refer to CGI's Anti-Corruption Policy under Section 4.3 below for further information on this topic.

**Former Employees of Customers** - Hiring or retaining the services of former employees of customers, whether in the private or public sector (including quasi-government agencies), may result in actual or perceived conflicts of interest. Accordingly, any such person may not: (i) for a period of two years from the termination of his or her employment with a former customer be assigned to work on, or in any way contribute to, a CGI project or contract that is linked to his or her former functions, unless the customer’s prior written consent is obtained and the hire is not prohibited by any code of ethics or other restrictions or undertakings applicable to such person; and (ii) disclose to any CGI member any confidential information such person obtained during the course of his or her former functions with the customer.

**Personal Relationships** - The potential for a conflict, or perceived conflict, between personal/family relationships and work responsibilities may arise, for example, where a member interacts with someone in a professional capacity in the course of CGI's business dealings with whom the member shares a close personal relationship or friendship. It may also arise if a member has a direct influence in deciding whether CGI will engage in business dealings with a person, supplier or third party with whom the member shares a close personal relationship or
friendship. If the close personal relationship or friendship may be perceived as adversely affecting the member's judgment or objectivity, both in the workplace and in any business dealings, a conflict or perceived conflict exists.

**Reporting**

Any actual, potential or perceived conflict of interest situation must be discussed with the member's manager (or, in the case of an executive officer, with either CGI's Executive Chairman of the Board, Chief Executive Officer, Chief Financial Officer or Chief Legal Officer) as soon as possible so that steps can be taken to address the situation.

**1.7. LAWS, STATUTES AND REGULATIONS**

**Compliance with the law**

It is CGI's policy to comply, not merely with the letter, but also with the spirit of the law. CGI is required to maintain compliance with various acts, statutes and regulations governing activities in the jurisdictions in which it carries on business and expects members acting on its behalf to do likewise. Members are also expected to report any situation of concern to ethics.crp@cgi.com or to the CGI Legal Department.

**Guidelines for compliance**

This Code does not seek to provide legal guidance for all laws, statutes and regulations that impact CGI's activities. Specialized resources - legal, tax, environmental, government relations, personnel - are available within CGI for that purpose. There are, however, several items of legislation that warrant specific mention. These are listed below along with some general guidelines for compliance.

**Health and safety laws**

CGI is committed to creating and maintaining healthy and safe workplaces for its members. Members are expected to comply with all safety laws, regulations and directives from their managers (which may not necessarily be a law or regulation).

**Environmental laws**

CGI is committed to preserving and enhancing the environment in the communities where its various businesses operate through responsible and environmentally-oriented operating practices. Members are encouraged to participate in undertakings geared to improving the environment in both their workplace and their community.

**Human rights legislation**

Every person has the right to equal treatment with respect to employment and the right to be free of discrimination because of race, ancestry, place of origin, colour, ethnic origin, citizenship, religion, sex, sexual orientation, age, pregnancy, record of offences, marital status, social conditions, political beliefs, language, veteran status (U.S. only), family status, disability or means used to overcome a disability. The following are CGI's policies on equal employment opportunity, anti-discrimination and anti-harassment as well as the procedure for reporting any breach or violation of these policies:

i) **Equal Employment Opportunity** - CGI is committed to treating all people fairly and equitably, without discrimination. The company has established a program to ensure that groups which are often subject to discrimination are equitably represented within CGI and to eliminate any employment rules and practices
that could be discriminatory. CGI regards diversity among its members as a priceless resource and one which enables the Company to work harmoniously with clients from around the world.

ii) **Anti-Harassment and Anti-Discrimination Policies** - CGI recognizes that everyone has the right to work in an environment free of sexual, psychological and racial harassment. CGI will do everything in its power to prevent its members from becoming victims of such harassment. CGI defines sexual, psychological or racial harassment as any behaviour, in the form of words, gestures, or actions, generally repeated, that has undesired sexual, psychological or racial connotations, that has a negative impact on a person's dignity or physical or psychological integrity, or that results in that person being subjected to unfavourable working conditions or dismissal.

CGI will prevent any form of harassment or discrimination against job candidates and members on any of the grounds mentioned above, whether during the hiring process or during employment. This commitment applies to such areas as training, performance assessment, promotions, transfers, layoffs, remuneration and all other employment practices and working conditions.

All CGI managers are personally accountable for enforcing this policy and must make every effort to prevent discriminatory or harassing behaviour and to intervene immediately if they observe a problem or if a problem is reported to them.

In their professional capacity, all members must refrain from any form of harassment or discrimination against anyone, including suppliers, customers and constructors.

iii) **Procedure for Reporting Discrimination or Harassment** - Any member of CGI who feels discriminated against or harassed can and should, in all confidence and without fear of reprisal, personally report the facts to the vice-president of his or her business unit and to the human resources leader either in that business unit, in the country or at the corporate head office. The facts will be examined carefully by these two individuals. Neither the name of the person reporting the facts nor the circumstances surrounding them will be disclosed to anyone whatsoever, unless such disclosure is necessary for an investigation or disciplinary action. Any disciplinary action will be determined by these same two people and will be proportional to the seriousness of the behaviour concerned. CGI will also provide appropriate assistance to any member who is a victim of discrimination or harassment. In addition, retaliation against persons who make complaints of harassment, witness harassment, offer testimony or are otherwise involved in the investigation of harassment complaints will not be tolerated.

**Competition act**

CGI is required to make its own decisions on the basis of its best interest and must do so independent of agreements or understandings with competitors. The Competition Act (Canada) or corresponding provisions of foreign legislation in matters of competition prohibit certain arrangements or agreements with others regarding product prices, terms of sale, division of markets, allocation of customers or other practices that restrain competition. It is the responsibility of each manager to comply with the letter and spirit of all competition laws as they apply to CGI.

Questions concerning competition-sensitive issues must be addressed to ethics.crp@cgi.com or the CGI Legal Department.

**Securities laws and insider trading**
Members are prohibited from trading in CGI securities while in possession of Privileged Information, subject to the limited exceptions under applicable laws and regulations. They are also prohibited from trading in another public company’s securities while in possession of Privileged Information regarding that public company gained during the course of the member’s work. Members are prohibited from disclosing Privileged Information to, or “tipping”, another party or recommending that another party trade in CGI securities or another public company’s securities while they have knowledge of Privileged Information. Tipping is a violation of laws and regulations even if the person disclosing the information does not personally make a trade or otherwise benefit from disclosing the information.

“Privileged Information” is information that has not been disclosed to the public and could affect the decision of a reasonable investor, as well as any fact or any change in business, operations or capital that would reasonably be expected to have a significant effect on the market price or value of any security and which has not been generally disclosed. CGI has adopted the “Insider Trading and Blackout Periods Policy” which extends to all directors, officers and members.

**Export and import laws**

CGI members may find themselves dealing with goods or services that are the subject of export or import restrictions, such as, for example, information or technology that has military or state security applications. Members who deal with controlled goods and services must comply with the CGI policies and procedures that are designed to ensure that the controls are respected.

**Laws that protect classified information**

In the normal course of CGI’s business with government clients, our members may be required to hold government security clearances and they may have access to information that is classified or facilities that are restricted. Members must comply with the letter and with the spirit of the laws, rules and regulations that apply to classified information and facilities that are restricted.

Whether a member holds a security clearance or not, members must not seek access to classified information or restricted facilities unless that access is required in order to allow them to carry out their assigned tasks. Members must not accept access to, retain, or otherwise deal with classified information, or enter restricted facilities, unless they hold a current and valid security clearance that entitles them to have the appropriate degree of access. If there is any doubt about whether information is classified or whether facilities are restricted, about the restrictions that may apply to information or facilities, or whether the member’s security clearance is adequate in the circumstances, the member must first consult with the CGI security officer who has the authority to advise the member.

1.8. **INVESTOR AND MEDIA RELATIONS**

**Authorized Spokespersons**

Initiatives relating to investor and media communications are the responsibility of CGI’s authorized spokespersons. Therefore, members are not allowed to make any public statement about CGI without first obtaining the authorization of such authorized spokespersons.

1.9. **COMMUNITY ACTIVITIES AND POLITICAL AND PUBLIC CONTRIBUTIONS**

As a global organization conducting business throughout the world, CGI is committed to the charitable donation of funds and services for humanitarian and other social needs, particularly in cases of emergencies or disasters.
Monetary and other contributions to charities, social projects and funds, including schools, educational funds and infrastructure projects, should occur outside of work hours and be handled with caution as they can be conduits for corrupt payments. In order to minimize this risk, CGI requires appropriate due diligence be conducted into such charities and projects prior to the approval of any charitable contributions made on its behalf. No contributions of any kind may be made on CGI’s behalf to any political party, candidate or campaign. In no event shall any charitable or political donations be made for the purpose of gaining any improper business advantage.

Questions to consider when making charitable payments:

1. Is the organization or body receiving the payment duly registered and does it otherwise comply with applicable law?
2. Is the organization or body, including its board of directors and other representatives, free of any political or other undue influence?
3. What is the purpose of the payment?
4. Is the payment consistent with CGI’s internal guidelines on charitable giving?
5. Is the payment at the request of a foreign official?
6. Is a foreign official associated with the charity and, if so, can the foreign official make decisions regarding CGI’s business in that country?
7. Is the payment conditioned on receiving business or other benefits?

1.10. COMPLIANCE WITH THE CODE

Management responsibilities

CGI’s managers have a special duty to be role models of appropriate business conduct and to see that the principles and policies of this Code and of other CGI guidelines and policies referred to in this Code are upheld. This means:

i) Copy of the Code - Ensuring that all members have a copy of the Code, and that they understand and comply with its provisions.

ii) Assistance - Offering assistance and explanations to any member who has questions, doubts or is in a difficult situation. Managers are also required to counsel members promptly when their conduct or behaviour is inconsistent with the Code.

iii) Enforcement - Taking prompt and decisive action when a violation of the Code has occurred, in consultation with the CGI Legal Department. If a manager knows a member is contemplating a prohibited action and does nothing, the manager will be held responsible along with the member.

Member responsibilities

Each member is accountable for observing the rules of conduct that are normally accepted as standard in a business enterprise. In addition they must abide by the following:

i) Compliance - CGI’s members are expected to comply with the Code and all policies and procedures of the company as well as to actively promote and support CGI’s values.
ii) **Preventing** - Members should take all necessary steps to prevent a Code violation.

iii) **Reporting** - Subject to applicable law, members must immediately report to their manager (i) situations of non-compliance with respect to this Code of which they become aware and (ii) suspected violations of the Code. All information will, to the extent possible, be received in confidence. It is corporate policy not to take action against a member who reports in good faith unless unusual circumstances warrant such action.

In addition, CGI has established the Ethics Reporting Policy as well as a process under that policy which allows any person who has direct knowledge of specific facts to report incidents in which the Company is exposed to a serious risk in matters of accounting, auditing, internal accounting controls, finance, banking or financial corruption. The process in place protects the incident reporter and ensures the confidentiality of the report.

Incident reports may be submitted either by telephone by dialing 1 800 422 3076 toll free, by dialing (503) 748-0564 and reversing the long distance charges, or by submitting an incident report online. For telephone reports, all long distances charges will be at the expense of CGI. For those who wish to submit incident reports online, a link to the incident reporting web site is provided on CGI's Enterprise Portal or members may access the incident reporting system directly at ethicspoint.com or such other site as is communicated by CGI from time to time.

CGI’s incident reporting system is managed by EthicsPoint, Inc., a company unrelated to CGI which has undertaken to ensure the confidentiality of all incident reporters as well as the confidentiality of the reports they submit.

CGI’s Ethics Reporting Policy is available on the CGI Enterprise Portal.

iv) **Consequences** - Unethical behaviour, violations of this Code and of CGI’s other guidelines and policies, as well as withholding information during the course of an investigation regarding a possible violation of the Code, may result in disciplinary action which will be commensurate with the seriousness of the behaviour. Such action could include termination as well as civil or criminal action.

1.11. **ADMINISTRATION OF THE CODE**

**Periodic review**

Responsibility for the periodic review and revision of the Code lies with CGI’s Corporate Governance Committee.

**Monitoring compliance**

The Board of Directors of CGI will monitor compliance with the Code and will be responsible for the granting of any waivers from compliance with the Code for directors and officers of CGI. The Corporate Secretary of CGI shall, when deemed appropriate, make reports to the Board of Directors of CGI with respect to compliance with this Code.

**Questions**

Questions concerning this Code should be referred to a member’s manager who, when warranted, shall report to CGI’s Corporate Secretary.
2. Executive Code of Conduct

This Executive Code of Conduct (the “Code”) is part of the commitment of CGI Inc. (“CGI”) to ethical business conduct and practices. This Code reflects CGI’s firm commitment, not only to adherence to the law, but also to the highest standards of ethical conduct.

This Code specifically covers CGI’s principal executive officer, principal financial officer, principal accounting officer or controller, or other persons performing similar functions (collectively, the “officers”) and supplements the Code of Ethics and Business Conduct.

2.1. HONEST AND ETHICAL CONDUCT

Respect and integrity
The officers of CGI are its ambassadors. They must always behave responsibly and demonstrate courtesy, honesty, civility and respect for all other employees of CGI, for its clients and for its suppliers.

Ethics
Supporting CGI’s objectives, officers in performing their duties will carry out their responsibilities at all times in a way that promotes ethics in their leadership. The officers will:

i) Undertake their responsibilities in a vigilant manner in the interests of CGI and to avoid any real or perceived impression of personal advantage;

ii) Advance CGI’s legitimate interests when the opportunity arises at all times ahead of their own interests;

iii) Proactively promote ethical behavior among subordinates and peers; and

iv) Use corporate assets and resources in a responsible and fair manner, having regard for the interests of CGI.

2.2. FULL, FAIR, ACCURATE, TIMELY AND UNDERSTANDABLE DISCLOSURE

Annual and quarterly reports
Each officer shall read each annual or quarterly report filed or submitted under the applicable securities laws and satisfy himself or herself that the report does not contain any untrue statement of a material fact or omit to state a material fact that is necessary in order for the statements made not to be misleading, in light of the circumstances in which such statements were made.
Financial statements

Each officer shall satisfy himself or herself that the financial statements, and other financial information included in the report, fairly present in all material respects the financial condition and results of operations of CGI as of, and for, the periods presented in the report.

Reports to securities regulators

Officers shall perform their responsibilities with a view to causing periodic reports filed with securities regulators to contain information which is accurate, complete, fair and understandable and to be filed in a timely fashion.

Reporting concerns and complaints

An officer who believes it is necessary or appropriate to do so can refer concerns about the quality and scope of financial or related reporting requirements to the Chair of the Audit Committee. Any officer who receives a bona fide material complaint about financial reporting from any employee shall report such complaints to the Audit Committee. Any officer who has disclosed such concerns in good faith shall not face any form of retribution.

2.3. COMPLIANCE WITH LAWS, RULES AND REGULATIONS

The officers are cognizant of their leadership roles within the organization and the importance of compliance with the letter and spirit of applicable laws, rules and regulations relating to financial and related reporting.

2.4. COMPLIANCE WITH THE CODE

General responsibilities

Officers have a special duty to be role models of appropriate business conduct and see that the principles and policies of this Code and other CGI guidelines and policies are upheld.

Reporting

Any violation or suspected violation of the Code should be personally reported by an officer to CGI's Executive Chairman of the Board, Chief Executive Officer, Chief Financial Officer or Chief Legal Officer.

Accountability

Non-compliance with this Code in every respect by an officer will be a matter for consideration and review by the Board of Directors of CGI.
3. CGI Anti-Corruption Policy

Policy statement

CGI is committed to conducting its activities free from the illegal and improper influence of bribery and to ensuring compliance with all anti-bribery and anti-corruption laws and regulations that may be applicable to its business world-wide (collectively, “Anti-Corruption Laws”). It is essential that our members, officers, and directors, as well as all third parties who act on behalf of CGI, comply at all times with the letter and the spirit of all Anti-Corruption Laws.

Overview

Bribery is offering, giving, receiving, or soliciting any item of value to improperly influence the actions of a person in order to obtain or retain business or an unfair advantage in the conduct of business; or to induce or reward improper conduct. “Kickback” is another term for bribery. Bribery can arise in both the public and the private sphere. It can take place directly or indirectly (e.g. through a Third Party). It can take many forms. Anti-Corruption Laws require companies like CGI to have proactive measures to prevent, detect, and address bribery and corrupt practices.

There are many reasons to care about bribery and corruption. Bribery and corruption are crimes punishable by fines and/or imprisonment. CGI officers, directors and members, as well as Third Parties, must not engage in any form of bribery or corruption. Whenever members are asked to approve or make a payment, they must ensure that they fully understand the reason for the payment and that the payment is legitimate. If in doubt, they should not make or agree to make the payment and contact the CGI Legal Department or ethics.crp@cgi.com for guidance.

Bribery and corruption have been identified as key factors that limit economic growth and contribute to inequality. By wrongfully benefiting a few individuals, they limit competition, undermine innovation, and corrupt societies. Bribery is also detrimental to our business – studies show that companies where bribery is condoned have lower levels of productivity and lower employee morale. Put simply, it is unethical and against CGI’s values.

Individuals and companies can face civil and criminal charges resulting in large fines, imprisonment, and suspension or debarment from government contract processes. Failure to comply puts members, their colleagues, and CGI at risk. This could have a very serious impact on members, and CGI’s business and reputation.

Key principles

3.1. BRIBES MUST NOT BE OFFERED OR ACCEPTED

CGI prohibits the offering, giving, receiving, or soliciting of any item of value to improperly influence the actions of a person in order to obtain or retain business or an unfair advantage in the conduct of business; or to induce or reward improper conduct. “Items of value” can include:

i) payments of money;

ii) extension of credit or loans;

iii) travel and accommodations expenses;

iv) gifts, meals, and entertainment;
v) political contributions and charitable donations;
vi) free use of company services, facilities or property;

vii) favors that are of value to a recipient (e.g., offering a job to a member of a person’s family); or

viii) anything else of value.

Bribery and corruption can take many forms. Red flags can include cash payments or gifts to individuals or family members; inflated commissions; inflated invoices; fake consultancy agreements; unauthorized rebates; political or charitable donations; and excessive payment of travel expenses for inappropriate non-business related travel. In some cases, simply offering an inducement is unlawful, even if not accepted. This Policy is intended to help you understand how to apply this prohibition in our business. It explores the areas identified above in more depth.

3.2. UNDERSTANDING CGI POLICIES AND IDENTIFYING RISKS

The first step in compliance is to understand our Code of Ethics, including this Policy, and how it impacts your responsibilities on a day-to-day basis. Knowing what steps to take to prevent risk and to ensure the proper handling of any issues relating to bribery and corruption is essential to compliance.

3.3. RESPOND

CGI will assess bribery and corruption risks on an ongoing basis within each Strategic Business Unit. CGI will implement mitigation plans and training programs as part of its system of internal controls. CGI will also monitor compliance at the local level to ensure that this Policy is being followed by all members. You should always complete all required training and cooperate with ongoing monitoring.

3.4. DOCUMENT AND REPORT

All documentation of financial transactions must be accurate and complete. You should always document your transactions in compliance with the Code of Ethics, and report any issues arising under this Policy that you become aware of as required by CGI's Ethics Reporting Policy. Questions under this Policy can be addressed to ethics.crp@cgi.com.

Areas of Focus

CGI has established procedures and guidelines to translate this Policy and our principles into practice. This section outlines the general requirements and procedures for the following risk areas:

(A) Gifts

Policy

Though gifts are recognized as appropriate ways of developing business relationships and promoting the CGI brand, we must ensure that the offering, solicitation and receipt of gifts does not give rise to even an appearance of impropriety. Particular vigilance must be exercised where gifts are extended to Government Officials.

All gifts offered by CGI must:

i) be permitted under local law and the Anti-Corruption Laws and conform to generally accepted local customs;

ii) have a clear business purpose which is directly related to CGI’s commercial objectives;
iii) be reasonable in value and not appear lavish or extravagant; and
iv) not be intended to create any obligation on behalf of the recipient or to result in CGI receiving any favour or advantage in return.

Typically, small gifts containing the CGI logo (such as coffee mugs, t-shirts, pens, and the like) offered sporadically to persons at CGI promotional events (such as trade shows) will not violate this Policy as long as they are not excessive.

A chart attached as Appendix A to this Policy provides limits on gifts to Government Officials allowed under the laws of various jurisdictions. All Members must adhere to these limits when offering gifts to Government Officials. When dealing with private parties, these limits should also be used as guidelines for determining if the value of a gift is reasonable. You should consult with the CGI Legal Department if you have any questions related to offering any gifts to Government Officials to ensure that they comply with local laws and the Anti-Corruption Laws. You can also direct inquiries to ethics.crp@cgi.com.

Full Transparency Required

If offering or accepting a gift meets these standards, it must be made or accepted in a fully transparent way. Gifts which are excessive, frequent, or intended to create an obligation on the part of the recipient are strictly prohibited.

How we ensure compliance

No reimbursement or payment for any gifts offered by a CGI member that otherwise comply with this Policy will be made without adequate approvals in compliance with the Operations Management Framework and supporting documentation / receipts.

Red flags

Examples of common “red flags” that could indicate bribery or corruption include the following:

i) Gifts that would be illegal under local or Anti-Corruption Laws;

ii) Gifts to or from parties engaged in a public tender or competitive bidding process;

iii) Any gift of cash or cash equivalents, or securities;

iv) Any gift where something is expected in return;

v) Any gift that appears excessive based on common sense standards or local custom;

vi) Any gift that is paid for personally.

(B) Hospitality, travel, entertainment and meals

Policy

As with gifts, providing hospitality, travel, entertainment, and meals (collectively, “Hospitality”) to any person may be a violation of the law if they are excessive, unreasonable, or do not have a valid business purpose. The same principle applies to soliciting or receiving Hospitality from existing or potential clients. CGI prohibits payment or reimbursement of expenses for any person to attend site visits or other CGI business events unless the expenses are reasonable, reflect actual costs incurred, directly relate to CGI business, and are permissible under local law.
and custom. CGI discourages the providing of Hospitality to the family members or guests of clients unless a clear business purpose for the Hospitality can be demonstrated.

**Hospitality Offered by or to CGI Members**

All Hospitality offered by or to CGI members must meet these requirements:

i) The Hospitality must be permitted under local law and the Anti-Corruption Laws and conform to generally accepted local customs;

ii) The host offering the Hospitality must be present;

iii) The purpose is to hold a genuine business discussion or foster better business relations and do not develop any form of obligation;

iv) The Hospitality is openly offered and not solicited; and

v) The Hospitality is not frequent or excessive, and is reasonable in value, so as to not raise questions of impropriety.

As with gifts, the chart in **Appendix A** identifies permissible limits on Hospitality for Government Officials in specific jurisdictions. All Members must adhere to these guidelines when providing Hospitality to Government Officials. When dealing with private parties, these limits should also be used as guidelines for determining if the value of any Hospitality is reasonable.

**Full Transparency Required**

If offering or receiving Hospitality meets these standards, it must be made or accepted in a fully transparent way. Hospitality which is excessive, frequent, or intended to create an obligation on the part of the recipient is strictly prohibited.

**How we ensure compliance**

Approval for the payment or reimbursement of bona fide and actual Hospitality expenses for clients, potential clients, and Government Officials must be obtained from the Legal Department prior to offering such a payment or reimbursement. All travel expenses must comply with the CGI Travel Policy. Expenses related to Hospitality offered by CGI must be submitted and approved in accordance with CGI expense reporting guidelines so that the expenses are properly categorized and auditable.

**Red flags**

Examples of common “red flags” that could indicate bribery or corruption include the following:

i) Hospitality expenses for persons for which there is not a legitimate business purpose;

ii) Hospitality expenses for family members of any person;

iii) Hospitality expenses submitted on behalf of non-CGI members (as opposed to being paid by CGI directly);

iv) Payment for flights and accommodations for potential or existing CGI clients to meet with CGI representatives when the CGI representatives could just as easily have met with the clients at the client’s site;
v) Use of travel agencies not approved by CGI for arranging or paying for Hospitality of Government Officials.

(C) Third parties

Policy

Most Anti-Corruption Laws impose liability on companies which become involved in direct or indirect bribery. This means that CGI may incur liability where a Third Party engaged to represent or provide a service to, or on behalf of, CGI makes an improper payment or otherwise engages in improper conduct in the course of its work for CGI. This exposure may arise notwithstanding that the payment or conduct in question is prohibited by CGI and/or that CGI had no knowledge of this payment. All CGI dealings with Third Parties must be carried out with the highest degree of integrity, visibility, and in compliance with all relevant laws and regulations.

How we ensure compliance

Professional integrity is a prerequisite for the selection and retention of Third Parties by CGI. Prior to the retention of any Third Party, the CGI member responsible for such retention must ensure that appropriate due diligence is conducted on such Third Party and any compliance “red flags” that are identified are properly addressed. In certain circumstances, Third Parties will receive compliance training, and all Third Parties are subject to CGI’s monitoring requirements and audit to ensure compliance with Anti-Corruption Laws and this Policy. Contracts with Third Parties must, where appropriate, contain appropriate terms to mitigate corruption risks.

CGI’s approach to retaining, training and monitoring Third Parties is “risk-based”, which takes into account a number of factors, including the corruption risk in the country in which the Third Party conducts its activities for CGI, the nature of CGI’s relationship with the Third Party, the reputation and notoriety of the Third Party and the value and prospects of CGI’s relationship with the Third Party. In higher risk situations, enhanced due diligence, training and monitoring, including the Third Party’s agreement to comply with CGI’s Third-Party Code of Ethics, will be required in accordance with procedures and protocols to be issued by the CGI Legal Department.

Red flags

Examples of common “red flags” that could indicate bribery or corruption include the following:

i) Excessive commissions to third-party representatives or consultants;

ii) Third-party “consulting agreements” that include only vaguely described services;

iii) Family, business, or other “special” ties with government or political officials;

iv) Reputation for violating local law or company policy;

v) Negative press, rumors, allegations or sanctions;

vi) Requests from government officials or clients to engage or hire specific Third Parties;

vii) Lack of credentials for the nature of the work being performed by the Third Party;

viii) Request to make payment to an entity located in an off-shore tax haven;

ix) Lack of an office or established place of business, or a shell-company incorporated in an offshore jurisdiction;

x) Requests for payment of non-contracted amounts, or lack of documentation for services performed;
xi) Convoluted or complex payment requests (such as payments to third parties or to accounts in other countries, requests for payments in cash, or requests for up-front payments);

xii) Requests for political or charitable contributions or other favors as a way of influencing official action;

xiii) Requests for specific sums of money to “fix” problems or “make them go away.”

(D) Facilitation payments

Policy

“Facilitation Payments” are payments made to secure, facilitate or speed-up routine, non-discretionary government actions (e.g. payments for speeding up customs clearance, loading and unloading cargo or scheduling government inspections or issuing government licenses or port documentation). CGI regards Facilitation Payments to be a form of corruption and strictly prohibits them.

How we ensure compliance

CGI members who are requested to make a facilitation payment should make a report to ethics.crp@cgi.com immediately. In addition, any CGI member that makes a payment that could reasonably be misunderstood as a Facilitation Payment should make a report to ethics.crp@cgi.com and ensure that the payment transaction is completely and accurately documented in CGI’s books and records.

Red flags

Examples of common “red flags” that could indicate bribery or corruption include the following:

   i) Payments to obtain permits, licenses, or work orders to which you are already entitled;
   ii) Payments to receive police protection or mail pickup/delivery;
   iii) Payments to receive phone service or water/power supply;
   iv) Payments to schedule inspections or transit of goods across border controls.

(E) Anti-money laundering

Money laundering is the process by which one conceals the existence of an illegal source of income and then disguises that income to make it appear legitimate. Use by CGI of proceeds tainted by illegality can give rise to liability in the countries in which CGI operates. CGI members should make a report pursuant to the Ethics Reporting Policy or to ethics.crp@cgi.com if they become aware of suspicious circumstances leading them to believe that any transaction might involve the payment or the receipt of proceeds of any unlawful activity.

Red flags

Examples of common “red flags” that could indicate money laundering include the following:

   i) Refusal to disclose the source of funds or the beneficial ownership of funds;
   ii) Uncertain qualifications of a participant for a proposed transaction; for example, if the principal business of such participant appears to be unrelated to such transaction;
   iii) Cash payments;
   iv) Payments to and from tax haven jurisdictions;
v) Complicated payment and transaction structures, including the use of multiple parties in transactions where payments and shipments are made to or from third parties which are not parties to the underlying contract;

vi) Criminal connections of transaction participants.

Training and Monitoring

In furtherance of CGI’s commitment to compliance with the law, this Anti-Corruption Policy is communicated to all CGI directors, officers, members and Third Parties, and is available on the CGI Enterprise Portal. Responsibility for compliance with this Policy, including the duty to seek guidance when in doubt, rests with the members or relevant Third Parties.

CGI will provide regular training on this Policy. When necessary, specialized training will be provided to members, directors and/or officers with significant compliance responsibilities or in high risk functions.

CGI will audit and monitor compliance with this Policy on an ongoing basis.

Reporting of Suspected Violations

Subject to applicable law, any suspected breaches of this Policy which directly or indirectly affect CGI’s business must be reported consistent with CGI’s Ethics Reporting Policy. The process in place protects the incident reporter and ensures the confidentiality of the report. There will be no retaliation for making a report. According to our Ethics Reporting Policy, you can make confidential reports of misconduct by calling a toll-free hotline number (see policy for numbers to call) or online (at ethicspoint.com).

Consequences of Misconduct

The consequences of violating applicable Anti-Corruption Laws are potentially very serious for CGI and individual members. CGI will vigorously enforce compliance with this Policy. Violations may result in disciplinary action, including in serious cases, termination of employment. Violations may also result in criminal and civil exposure for CGI and any individuals involved, including imprisonment, fines and damages actions, and can cause significant damage to CGI’s reputation in the market place. CGI may also face suspension and disbarment from public sector contracts as a result of violations by CGI members.

Third Parties who breach the CGI Third Party Code of Ethics may also be subject to prosecution and severe penalties, including the termination of their contract with CGI.

Questions about this Policy

Questions about the application of this Policy to specific circumstances can be directed to ethics.crp@cgi.com. Questions can also be directed to your local CGI Legal Department or Human Resources representative.
