

CGI Federal at a Glance

Since 1976, CGI has partnered with the U.S. federal government to support a variety of organizations and unique missions.

Through a deep understanding of clients' goals, we assist in managing challenges, providing consultative insights and developing technical, functional and managerial solutions to help leverage investments that improve outcomes and maximize results.

A Client-Centric, Partnership Approach

We have the mission understanding and technical expertise to deliver results.

- **Federal government mission expertise**— CGI understands the mission and the challenges facing our government clients to implement solutions that improve outcomes and maximize results.
- **Technology independence**—We focus on selecting the most appropriate combination of products, services and solutions that effectively resolve our client's unique challenges.
- **Client-proximity model**—CGI organizes our operations around specific client locations, and partners with communities to bring onshore delivery centers that create high quality IT jobs and boost local economies. This allows us to be deeply rooted in the local communities and have the ability to provide in-person services, which promotes project success.

Focus Areas

To help the U.S. federal government achieve comprehensive, scalable and sustainable IT and business goals, we are focused in five areas:

- **Digital Transformation**—We help federal clients transform their operations, modernizing or replacing existing systems to fundamentally change the way an agency carries out its mission.
- **Citizen Engagement**— We enable clients to improve delivery and experience of government services to meet the rising citizen expectations driven by consumer behaviors.
- **Operational Excellence**— Leveraging technology advancements, improved transparency, accuracy and overall efficiency, CGI helps agencies navigate budget pressures and improve performance.
- **Protecting America's Assets**— We help safeguard the public trust through end-to-end cybersecurity, transparent and accountable financial management, rigorous knowledge management and prevention of fraud, waste and abuse.

Federal Mission Expertise

- Defense
- Environment
- Health and Human Services
- Homeland Security
- Intelligence
- Judicial
- Legislative
- Public Housing

Large Scale Program Spotlight

- Cybersecurity modernization for federal entities under the DHS CDM program
- Design, modernize and operate the EPA's Central Data Exchange
- Process applications and produce all domestic U.S. passports
- Manage U.S. visa operations for embassies in 63+ countries
- 190+ federal organizations trust CGI's Momentum® to help manage their end-to-end financial, acquisition and budget formulation processes
- Modernizing the Army and Navy's aging global acquisition's platform using our Momentum Acquisitions solution
- Modernizing the largest civilian agency's financial system using our state-of-the-art Momentum Financials ERP system
