

Forté Good Garage Scheme

Find a garage you can trust with the Good Garage Scheme website by Forté and CGI.

The Good Garage Scheme website owned and operated by Forté Lubricants allows customers to search for member garages in their area and check out feedback/reviews from other users.

In 2012, the website was getting a bit dated and didn't work well on phones and tablets. We had already developed an iPhone app for the site, so Forté asked us to develop a new, modern website as a replacement.

**Garages Accepting
Online Bookings**

The primary function of the site is to allow users to find a garage near them, so we used Google Maps to develop a flexible mapping solution that provides plenty of information on desktops, while scaling down to be usable on mobile phones.

The site allows you to book your car in for a service with a garage easily, as we've integrated with Experian's API so that users can enter their car's registration number and it pre-fills the booking form with information about the vehicle.

Users can fill in a form on the site to enter feedback about a garage they have visited.

About CGI

Insights you can act on

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world.

We are insights-driven and outcomes-based to help accelerate returns on your investments. Across 21 industry sectors in 400 locations worldwide, our 77,000 professionals provide comprehensive, scalable and sustainable IT and business consulting services that are informed globally and delivered locally.
