

Ratabase Output Designer

CGI

Experience the commitment®

Building reports, customizing templates, creating regulatory filings and controlling data access and integrity are at the heart of Ratabase Output Designer. With its rich suite of features, users can generate efficiencies while designing and maintaining professional output pages from Ratabase Product Builder.

STREAMLINED AND SOPHISTICATED

Output Designer allows the business user to incorporate Ratabase tables and formulas into professional output pages. Output Designer aids in regulatory compliance by producing materials for submission to state insurance regulators.

Advanced features

Output Designer provides a highly effective vehicle for the following:

- Producing regulatory filings (e.g., DOI reports) and agency manual pages
- Performing testing and results comparison for quality assurance
- Publishing reports on remote intranet/internet access by agencies
- Retrieving rate table data from the Product Builder database and rate revision development
- Manipulating Ratabase data for formatting and comparison with other systems
- Generating new rate page results from templates by just refreshing data, providing efficiency gains
- Saving output as generated templates in a Ratabase Report format—no need to send live spreadsheets to agencies and regulators

Powerful benefits

Output Designer delivers a wide range of powerful benefits, including the following:

- **Ensures accuracy** by pulling table and formula data directly from the Product Builder database, without the need to copy and paste or re-key information

RATABASE: POWERFUL, AWARD-WINNING

- XCelent Award recipient for functionality, customer service and client base
- 30+ years serving the insurance industry
- Partner with 12 of the top 20 global insurers
- 100+ live implementations
- Sub-second response time per rating request (~1,000 transactions in less than 5 seconds)
- Process 60% of GWP in U.S. alone
- Clients have experienced:
 - 75% improvement in days to implement changes
 - 50% reduction in staffing needed to support rating

“It is rare for a vendor to win an XCelent award, and rarer still for a vendor to win more than one award. CGI’s Ratabase product won an unprecedented three XCelent awards in this year’s review of rating engines.”

- Karlyn Carnahan, Celent Property and Casualty Research Director

- **Streamlines workflows** by reusing rate pages (Design, Development, Publish), eliminating duplicate work effort, and maintaining the same rate page template across different databases or hierarchies
- **Provides freedom to customize** data layouts using Excel formatting features and includes personalized graphics and labels

More about Ratabase

With more successful installations than any other solution in the industry (100+), Ratabase is the premier rating and rules engine in insurance today. With Ratabase, insurance agents and consumers can generate policy price quotes in real time.

ABOUT CGI

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. Operating in hundreds of locations across the globe, CGI delivers end-to-end services and solutions, including strategic IT and business consulting, systems integration, intellectual property, and managed IT and business process services.

CGI works with clients through a local relationship model complemented by a global delivery network to help clients achieve their goals, including becoming customer-centric digital enterprises.
