

Regulatory and Statistical Reporting

CGI

Experience the commitment®

The burden of complying with regulatory and statistical reporting requirements is greater than ever. Save time and money by letting CGI take the hassle of reporting off your hands.

An industry leader in regulatory and statistical reporting, CGI's STATS service offers insurance carriers and MGAs an easy, cost-effective way to offload the work of reporting, allowing you to focus on innovation and growing your business.

The STATS service is staffed by industry experts and driven by a best-in-class software solution specifically designed to meet the needs of the property / casualty insurance industry.

CGI manages the entire process—from receiving your data to submitting the report to the agent. We even handle error analysis and processing for you.

A FULL RANGE OF SERVICES

The STATS service is designed to give you one-stop shopping for all of your statistical and regulatory reporting needs.

- We support all personal and commercial lines of business for all U.S. states.
- We support commercial and personal automobile and general liability for Canada.
- Our system automatically reformats your data into codes and records layouts required by stat agencies, saving you the burden of maintaining code or manipulating all of that data. Simply drop your data off in our client staging area, and we'll take it from there.
- Our service includes processing data through the appropriate pre-edit packages to ensure accurate record layout and code compliance.
- We handle the balancing of premium and loss amounts, as well as annual statement reconciliation and verification.
- Our team will analyze your data to eliminate errors during processing. This ensures acceptance of your submission and reduces or eliminates fines for non-compliant data.
- We will submit your data electronically to ensure that it arrives on time and is accepted by the stat agent.
- We retain the data files and reports for easy access in the event they are needed in the future for questions from stat agents.

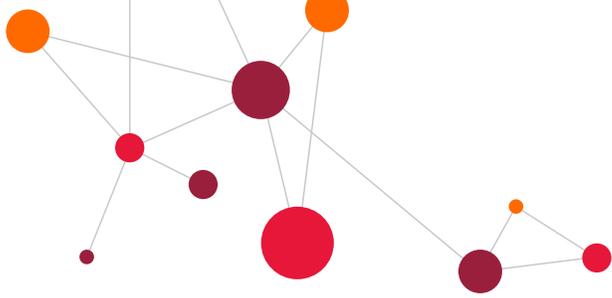

STAT REPORTING ENTITIES

- We provide support for any issues, working cooperatively with stat agents to resolve issues and ensure that you stay compliant.
- As part of our ongoing service, our staff reviews circulars and bulletins from each stat agent and proactively implements changes to our system, allowing you to easily stay up to date. If a change to your source system is needed, we'll let you know.

WHY CGI?

- We are experts in the field, averaging 25+ years of experience in insurance and stat reporting.
- Our team members serve on stat agent technical advisory committees, so we give you a voice in reporting requirements and advanced knowledge of changes coming in the industry.
- We analyze your data to ensure the correct format and codes for each agent and work with you to proactively resolve errors to prevent fees and fines.
- We continually improve our processes, validate the accuracy of your submissions and ensure full compliance.

HOW WE ARE DIFFERENT

- Need to get your stat reporting done fast? We offer quick implementation, achieved by working closely with you.
- Our participation in Statistical Agent Technical Advisory Committees gives us a unique perspective and insight into both the insurance and stat industry.
- We give you peace of mind, knowing that your data is in the hands of experts, so you can focus on more important things.
- We have a solid foundation of partnership and trust with our clients, receiving some of the highest customer satisfaction scores in the industry (average 9.8/10 score).
