

LET'S GO ON A NATURE SCAVENGER HUNT!

Ages: 11 and up

Spending time in nature is a great way to learn about and grow our appreciation for the environment. Going outdoors is also great for your mental well-being and taking a walk or hike is great for your physical well-being!

A note about safety

Remember to be safe and aware of your surroundings.

A note about COVID-19

Our world is changing every day due to COVID-19. At the time of this writing, most families in the U.S. are encouraged or required to “stay at home,” “shelter in place” or a similar order. Right now, going on a walk is still encouraged, as long as you stay only with those in your household and stay 6 or more feet away from any one you encounter on your walk. Everyone in the U.S. is also encouraged to wear a face covering when going outside (that may even be required by the time you are reading this). Please remember to follow all up-to-date guidance from your state and/or local government.

Scavenger Hunt!

Scavenger Hunt Reflections

Where did you do your scavenger hunt?

What was your favorite thing about the scavenger hunt?

What was the hardest item to find?

What did you learn on your walk?

How did the walk make you feel?
