

STEM from Home Pack 20

CGI Week!

We hope that you have enjoyed developing your STEM skills with us over the past 20 weeks!

In the final pack in the STEM from Home series, we want children to demonstrate the skills they have learned throughout the past five months, as they learn all about CGI!

This week, children will create a showcase of their STEM creations from throughout the 20 weeks, play CGI maths bingo, research facts about CGI and create a job advert for CGI.

This Week's Technical Activity - Project Showcase!

Introduction

In this project, you will create a showcase of all of your projects that you have created over the past 20 weeks, learn about links and embedding resources.

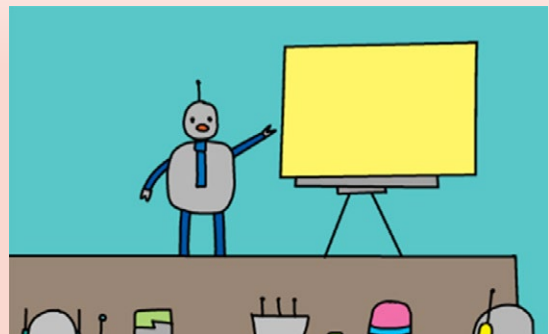

What you will need

A computer capable of accessing trinket.io.

What you will learn

This project introduces text links to other webpages and to named ids within a page. It also introduces embedding trinkets and Scratch projects into a webpage.

This Week's Activity – CGI Maths Bingo!

Play the CGI Maths Bingo game to test your maths skills while learning all about CGI!

Play with up to eight players! One person will read out the maths questions and the players will work out the answers and see if they have the answer on their sheet, the first person to get a full house wins!

There are primary and secondary versions of this activity available.

Access the [CGI Maths Bingo Primary](#).

Access the [CGI Maths Bingo Secondary](#).

This Week's Research Activity - About CGI!

CGI is a global IT company with 6,000 members (what we call our employees) in the UK. We have offices around the UK, across Europe and in Canada, the US and Asia. We provide end-to-end IT solutions to many types of clients.

Your task is to research CGI! What sort of work do CGI do? Who are some of CGI's clients? What are some fun facts about CGI?

CGI

This Week's Bonus Activity - Create a Job Advert for CGI!

CGI have more than 6,000 members in the UK, working in hundreds of different roles. Though CGI is an IT company, not every role is technical!

Your task is to create a job advert on behalf of CGI, advertising one of the following job roles:

- Project Manager
- Software Developer
- Business Analyst

Your advert should cover the following information:

- What is the description of this job?
- What responsibilities would a person in this job have?
- What experience is necessary for this job?
- What qualifications do you need for this job?

Your designs can be hand drawn or created digitally using Word or PowerPoint, it's up to you!

Ask your parent/Guardian to upload pictures of your STEM creations to [Twitter](#), [LinkedIn](#) or [Facebook](#) using [#STEMfromHome](#) and [#ExperienceCGI](#), remember to tag us!
