

## STEM@CGI – At Home

“STEM@CGI At Home” offers weekly STEM based activity packs with practical STEM activities for children. **Get your family involved, learn and have fun!**

### ACTIVITY – MYSTERY LETTER

#### Introduction

In this project, you'll create a mystery letter that looks like each word has been cut from a different newspaper, magazine, comic or other source.

[Access this activity](#)

#### What you will need

We recommend you using [Trinket](#) to write HTML & CSS online.

#### What you will learn

- This project introduces CSS classes and the ability to style HTML elements with multiple classes.
- Background images and Google fonts are also introduced

**Stay healthy and safe!**
