It's the dawn of a new era in manufacturing. Digitization is reimagining the way you produce, sell and deliver across your entire value chain.

At the same time, sustainable manufacturing expectations are rising. In this new world, Industry 4.0 and new technologies offer you the opportunity to do business in a profoundly different way—as a connected, adaptive and sustainable manufacturer, integrated with your entire ecosystem.

The economic impact and business challenges of the COVID-19 pandemic continue to evolve. Despite the uncertainty, for those manufacturers willing to transform, the possibilities are limitless. CGI is committed to your services and insights to enable you to respond to unprecedented challenges, rebound effectively and reinvent ways of working. Together, we will achieve your strategic vision and strengthen your position as a trusted leader within manufacturing.

Serving as your transformation partner

For over four decades, we have helped leading manufacturers navigate and seize the opportunities of change. With deep industry and technology expertise, our consultants work with you to improve business agility so you can drive efficiencies and reduce costs as you continue to advance your strategic goals. Through strategic IT and business consulting services, systems integration, IT managed services and intellectual property solutions, we help you realize the promises of Industry 4.0 to enable new business models, offset margin pressures and optimize your value chain.

Key sectors we serve

Co-creating the future

Our consultants work side-by-side with you to understand your unique challenges and co-innovate solutions that drive competitive advantage and deliver greater value to your organization. This includes:

- **Providing mission-critical managed IT services** across your plants around the world
- **Reimagining the way you collaborate** to enhance teamwork across sites
- **Creating cloud-based platforms for data insights** to generate new business
- **Transforming the end-to-end supply chain** across silos to serve your customers better
- **Integrating IoT and AI to optimize operations** with autonomous digital continuity
- **Guiding your digital transformation** to drive innovative business strategies and growth in new ecosystems
- **Securing your operations all the way to the shop floor** to prevent cyber attacks before they happen

We are committed to driving engagements more accountably and responsively than any other company of our kind

In all we do, our goal is to build trusted relationships through client proximity, providing industry and technology expertise and end-to-end services to help you meet the needs of your customers and citizens.

Our sustained growth and our financial strength are a testament to the trust of our clients, the expertise and dedication of our consultants, and the sound principles by which we operate. We drive operational excellence through the CGI Management Foundation, which aligns our operations through common principles, processes and frameworks to provide quality at scale. This provides the confidence you need to partner with CGI as your full-service provider, serving your needs today and into the future.
