# Momentum® Acquisitions

CGI

Acquisition in the federal government comes with ever-evolving regulations and customer needs. Agencies must stay compliant while consistently delivering value. To support this, they need agile and innovative approaches.

Federal acquisitions is going through a transformation; federal leaders are looking not just to satisfy the requirements of new mandates and initiatives, but also to create new ways of working by streamlining processes, empowering data-driven analysis, facilitating collaboration, and ensuring critical security.

Stay ahead of the compliance curve

CGI's Momentum® Enterprise Solution is built with compliance in mind. By staying up to date with federal regulations and automating compliance checks, Momentum fulfills federal mandates now and will continue to in the future. This allows federal IT leaders to focus on high-value decisions and outcomes.

Momentum – The Ideal Solution for Federal Agencies

Built for the Federal Government: CGI's Momentum solution is specifically designed around the nuances of federal regulations, unlike many other commercial ERP solutions.

Agency-Driven Innovation: The agency-run Momentum User Group, communities of practice, and other forums contribute to a customer-centric product roadmap.

Component Functionality for Incremental Implementation: For ever-evolving business needs, Momentum provides the ability to implement components on their own and expand capabilities over time.

Shared and Flexible Models: Momentum offers a variety of deployment models including shared service implementation, license and maintenance models and software-as-a-service delivery.

Momentum

Pre-award – Enabling process-driven offer evaluation

User-focused to support agencies through acquisition planning; requisitioning; preparing and posting notices and solicitations; and receiving and evaluating vendor offers.

Automated compliance including real-time FAR and DFARs clause recommendation logic; real time SAM validation and automated workload assignment using a criteria and ranking based logic.

Enforced security of source selection materials, access management for sensitive attachments and contract files, and data partitioning capability.

Award – Streamlining the award process

Flexible to fit a variety of contract types: simplified purchases, complex contracts, travel, and purchase card procurements. Collaborative review process with workflow capability to route attachments internally and externally for review; tracking and easy viewing of comments, approvals and workflows.

Built-in automation facilitates creation of procurement documents from the Central Contract File (CCF), allowing data to be copied forward from one phase to the next, automating referencing and document filing.

Efficient award reporting and announcement by interfacing with the System for Award Management (SAM), the Federal Procurement Data System-Next Generation (FPDS) and Grants.gov.

Post-award – Helping to track, manage, and close out

Comprehensive contract administration functions including issuing orders, executing mass modifications and conducting closeout activities.

Authoritative source for all documentation, with real time reporting and querying capabilities, plus the central contract file to maintain all procurement transactions and related data from pre-award through closeout.

Vendor performance evaluation management utilizing defined vendor performance evaluation criteria and workflow.

About CGI

Insights you can act on

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world. We are insights-driven and outcomes-based to help accelerate returns on your investments.

Nearly 7,000 of our experts help the U.S. federal government achieve comprehensive, scalable and sustainable IT and business goals. We enable our clients to execute digital transformation, build the federal workforce of the future, achieve operational excellence, enhance citizen engagement and protect America's assets. As the federal government faces unprecedented challenges, we remain committed to enabling its success, using our deep understanding of clients' goals and mission-essential needs to provide consultative insights and develop solutions for maximum results.
