

Improving  
patient  
experience  
and safety with  
e-Prescribing

# Challenges

**Reducing risk** associated with prescribing and medicines administration errors

**Management of complex medication** including complex i.v and infusions, paediatric prescribing and fluids

**Move to digital** through paperless

**Cost efficiencies**

**No standard approach** to clinical applications and patient data within hospitals

# e-Prescribing and Medicines Administration solution

## **CGI**

### CGI (Support and Implementation)

- Healthcare Systems Integrator
- Implementation and support partner of BetterMeds.
- Hosting and Data Migration services

### Better Meds Solution

- Software company developing BetterMeds and other EHR Solutions
- Major healthcare presence in Europe, based in Slovenia
- Additional integrated offerings available including BetterPlatform and BetterPortal.

# Benefits

**Increases patient safety** and experience

**Reduces medicine related harm** resulting from prescribing

**Cost and efficiency savings**

**Move to paperless**

**Improves patient discharge process**

**Strengthens clinical decision making**

# Improving patient safety and experience with e-Prescribing and medicines administration

We work with University Hospitals Plymouth NHS Trust, Somerset NHS Foundation Trust, South London and Maudsley NHS Trust and Oxford Health NHS Foundation Trust implementing the Better ePMA solution, BetterMeds.

“The challenge for us to address through e-PMA was to increase the safety around prescribing and medicines administration, introduce efficiencies through the medicine management process, improve patient experience, and look at how we could lower cost. This project has been a collaboration between CGI and Better. It’s been one of the best working relationships I’ve experienced.”

**David Chalkley**  
Deputy CCIO, Somerset NHS Foundation Trust

“We are very excited to start our ePMA journey and to be working together with our trust colleagues, Better and CGI, towards delivering benefits for patients and staff.”

**Alison Corfield**  
Head of Clinical Systems, Oxford Health NHS Foundation

## About CGI

Founded in 1976, CGI is among the largest IT and business consulting services firms in the world.

We are insights-driven and outcomes-based to help accelerate returns on your investments. Across 21 industry sectors in 400 locations worldwide, our 77,000 professionals provide comprehensive, scalable and sustainable IT and business consulting services that are informed globally and delivered locally.

Our commitment: Insights you can act on.
