

CGI Clever Conversion – Set the Stage

Downward pressure on fees, increased regulatory scrutiny, new service delivery models, lack of resources and intense competition are accelerating the pace of business while slowing profitability.

The need of moving to the Intelligent Enterprise is clear. Organizations are striving to achieve the next level of process automatization and efficiency by moving their ERP system in to the futureproof platform of S/4HANA. Conversion is the method to use to leverage the in-built investments in current solution with the developed best-practice processes in the modern platform of S/4HANA.

The Intelligent Enterprise

The intelligent enterprise allows its employees to focus on high value-added tasks instead of manual, repetitive work by adding innovative, intuitive, and intelligent features into its business system.

With a digital age user experience, actionable insights with analytics and the possibility for next generation automation with machine learning, SAP S/4HANA provides you with what you need to run and adapt your business to the digital world we live in today.

Clever Conversion – set the stage

CGI offers a quick, safe and straightforward first step in transformation from SAP ECC to S/4HANA through Clever Conversion – Set the Stage SAP S/4HANA.

CGI conversion approach, emerged from own conversion experience, is to start small with a stand-alone system conversion to get all hard-facts of current system status and readiness and give business a stand-alone environment to explore S/4HANA's potential based on your own data and system content.

Implementation

S/4HANA Conversion is a transformation of current ECC to S/4HANA SAP Activate methodology is a modern agile framework supporting all stages of a conversion project. Conversion is performed in all available system environments through several iterations to gradually finetune the process for a quick and safe production cut-over

Solution in brief

- Full scope conversion of a stand-alone sandbox system performed in your system landscape - by our experts
- A stand-alone S/4HANA environment with your business data, transactions and master data
- Identified S/4HANA business improvements

CGI experts take lead in the transformation and guide you through the technical and business process to ensure fast time to value with a Set the Stage conversion - from 8 weeks from start to completion.

Price

Implementation costs:

Fixed price from SEK 700 000
