

CGI Starter Package for Intelligent HCM

Higher demands on efficient onboarding and the move from transactional to strategic HR require a set of modern, comprehensive and intelligent tools. CGI's Starter Package for Intelligent HCM will jump start your move to a more efficient and engaging way of managing your most valuable resource – your people.

Onboarding new talent quickly, engaging your employees with digital tools and to derive useful, actionable data out of your daily transactions. These are some of the key drivers for investing in a modern cloud solution for your HR processes. With the CGI Starter Package for Intelligent HCM - you will leverage new top-of-the-line technology to proactively engage with your employees and capture their personal experiences.

INTELLIGENT HCM

By redirecting our focus on HCM we aspire to help our customers in capturing, analyzing, streamlining and making strategic decisions based on both operational data, which describes how something is working, but also experience data, which describes *why* it is working the way it does.

Together with the transactional data captured, the intelligent SuccessFactors platform enables organizations to rapidly and radically improve the employee experience – whether at a micro-individual or at a business-wide level.

STARTER PACKAGE FOR INTELLIGENT HCM
