

Starting, improving or optimizing IT Asset Management?
CGI offers a wide range of ITAM services to fit any organization.

IT Asset Management (ITAM) is a framework and set of processes for strategically tracking and managing the financial, physical, licensing and contractual aspects of IT assets through their life cycle.¹

CGI'S ITAM PORTFOLIO

MATURITY ASSESSMENT

CGI's ITAM Framework contains a maturity assessment with best practices from many years. By interviewing the stakeholders and reviewing relevant data, our consultants will create a report explaining the current ITAM maturity and provide concrete advise on how to grow to the next level.

ITAM CONSULTING

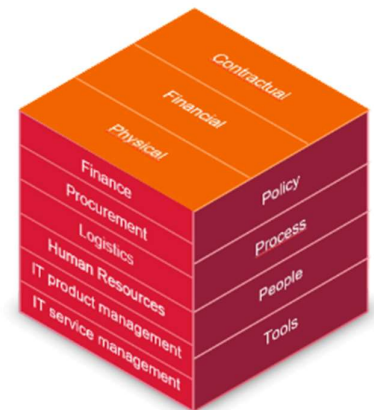

Our ITAM consultants deliver strategic advice to meet IT and Business goals on premises and in cloud. The consultation is very diverse. From organizational advice to tool selection.

MANAGED SERVICES

Includes all services from procure to retire, on premise and in cloud, resulting in rationalized and cost efficient software portfolio.

Within the managed services there is a lot to choose from, to ensure that the service fits your organization and ITAM ambitions.

AUDIT SUPPORT

Audit defense support, including pre-audit assessment to prepare for potential outcome (risk reduction, compliance, unnecessary cost avoidance).

CGI's Audit defense strategy will ensure that audit fines are reduced to a minimum.

TRAINING SERVICES

Customized training by certified professionals.

RESELLER INTERMEDIATE

CGI is not a software or hardware reseller. CGI uses multiple resellers to select the best price and conditions for your company.

CGI is independent and will select the best reseller to purchase the software from.

HARDWARE ASSET MANAGEMENT

Hardware discovery and maintaining the CMDB.
