Ratabase

The leading globally proven rating platform

Reduce operating costs, increase speed to market and leverage integration capabilities to stay ahead of an evolving market with Ratabase.

Our work in the global insurance market

Leading insurance carriers around the globe trust Ratabase to automate their rating and underwriting for all lines of business and through all distribution channels. Carriers across North America, as well as in the UK, Europe and Scandinavia, choose Ratabase when speed, accuracy, ease of use and reliability are paramount.

Our focus on efficiency

Ratabase accelerates our clients' ability to get their products to market while reducing operating costs. Ratabase can be deployed on-premise or in the cloud to provide the scalability and operational resilience demanded today. Our intuitive and functionally rich browser interface empowers business users to manage all aspects of the rate making process with no need for IT involvement. Carriers can deploy products to a diverse distribution network with Ratabase Environment, Management and Monitoring App (EMMA) at the click of a button and monitor and evaluate performance in real time.

Our approach to integration and data

Ratabase supports light touch, along with rapid plug-and-play integration, and is connected to more than 50 policy administration systems, web sites, agency portals and underwriting workbenches, with the flexibility for others. Our integration function has been developed to drive profitability through accelerated integration with new distribution partners, insurtech partners or new data providers.

Benefit from a proven rating platform

Ratabase is the "gold standard" in insurance rating with 100+ successful implementations and an average client satisfaction score of 9.8 out of 10. It provides actuaries, underwriters and business analysts with sophisticated tools to manage all aspects of the rate making process—from price modeling, product development and maintenance, to deployment and product management.

Ratabase

Accelerating innovation by empowering business users

CGI's Ratabase suite of products are designed to accelerate innovation by completely and seamlessly supporting the innovation life cycle. This suite of solutions includes:

of U.S. written premiums processed via Ratabase

75%
improvement in days to implement changes

100+
implementations globally

4,000
data items processed in sub-second response time

Build once, distribute anywhere, connect to anything using the Ratabase suite

Product Builder: This intuitive and functionally rich browser interface empowers business users to manage all aspects of the rate making process, with no need for IT involvement, seamlessly between the office and remote working. Pre-built APIs enable process automation for new filings, workflows, testing and distribution. In an increasingly regulated environment, Product Builder provides clear audit trails for immediate transparency on pricing control and regulatory compliance.

Ratabase Calculator: Our highly scalable and reliable performance engine delivers the power to rate policy transactions for any line of business in real time and at sub-second level. The Ratabase Calculator efficiently processes thousands of data items per transaction to ensure accurate pricing.

Ratabase Output Designer: With this feature, business users can incorporate Ratabase tables and formulas into professional output pages. Output Designer aids in regulatory compliance by producing materials for submission to state insurance regulators directly from Ratabase data.

Ratabase Actuarial: This feature supports experimentation, simulation, analysis and promotion of rates with the Ratabase integrated toolset for actuarial or business users. Improve efficiency, ensure confidence and drive pricing innovation and accuracy using multiple data sources.

CGI Precision Marketplace: Carriers can rapidly harness the power of data to drive profitability through integration with insurtechs and other key data sources. Improve loss ratio by more than 1.5% using personal and commercial data enrichment to enhance risk assessment and selection.

Partner of choice

CGI is a global solutions provider for P&C and life carriers, brokers and agents, including 7 of the top 10 insurers in the USA and 200+ clients worldwide.

Our 3,500 experienced insurance experts deliver end-to- end services and solutions that enable insurers to become digital organizations across all areas of their business.
