

CGI Precision Marketplace

Deliver an innovative customer experience, improve profitability, and expand distribution networks through the orchestration of dozens of pre-configured integrations specific to insurance data sources and services.

Innovate without limits

CGI Precision Marketplace enables insurance carriers and managing general agents (MGAs) to connect once to our marketplace and access approximately 70 different data and solution providers. We have APIs in place, as well as contracts, which are priced “per piece” at street price or better.

Accelerate your digitization programs and solve complex problems through one simple connection with CGI. We provide access to a wide range of insurtechs or data partners, with new partners continually added. CGI’s agnostic integration approach enables you to develop unique capability ecosystems with your partners of choice.

Insurance capabilities

Interact with clients more efficiently

Provide clients and business partners with faster and more intuitive user experiences by accessing more than 40 pre-built data enrichment connections.

Accelerate performance with real-time data

Use real-time data to support data prefill and use CGI Precision Marketplace Workflow to determine data usage for each transaction based on factors such as distribution channel or line of business.

Improve underwriting performance

Explore a growing data library available out-of-the-box with CGI Precision Marketplace in both personal and commercial lines. Leverage enhanced data, examine prospect attributes, assess geographical data, or invoke machine learning algorithms to deliver enhanced risk analysis and improved profitability.

CGI Precision Marketplace

CGI Precision Marketplace connects insurers to a marketplace of data solutions for a seamless customer journey. Our insurance solution features:

- Cloud-based, low-risk, high-value insurance innovation platform
- Full integration, orchestration and syndication capabilities for data and services
- “Best-in-class” insurtech ecosystem through seamless connectivity
- Low-code interface for business users

CGI Precision Marketplace

Accelerate end-to-end digitization

Connect your existing platforms with distribution partners and use CGI Precision Marketplace Workflow to support streamlined processing. Through advanced data mapping capabilities and CGI's out-of-the-box insurance data model, you can rapidly migrate data from one platform to another. Cleanse submission data for improved straight-through processing and seamlessly connect to newly emerging digital ecosystems.

Why CGI?

As a partner of choice for hundreds of insurers, brokers, and agencies around the world, our experience and expertise include the following:

- 40 years of insurance experience, including policy, claims, and billing system implementations across the globe.
- Innovative solutions such as Ratabase, the industry's leading pricing and product configuration engine.
- Systems integrator for the world's leading core insurance software solutions.
- Processor of 15+ million transactions daily and \$450 billion in premiums annually through systems we manage.

CGI Precision Marketplace is a trademark or registered trademark of CGI Inc. or its related companies

Partner of choice

CGI is a global solutions provider for P&C and life carriers, brokers and agents, including 7 of the top 10 insurers in the United States and 200+ insurers worldwide.

Our 5,000 experienced insurance experts deliver end-to-end services and solutions that enable insurers to become digital organizations across all areas of their business.
