

CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

Business Analytics

Mobilize your data into the cloud and combine it with other sources, whether On-premise or in other clouds, to get the most out of your information through easy, secure and scalable visual analytics.

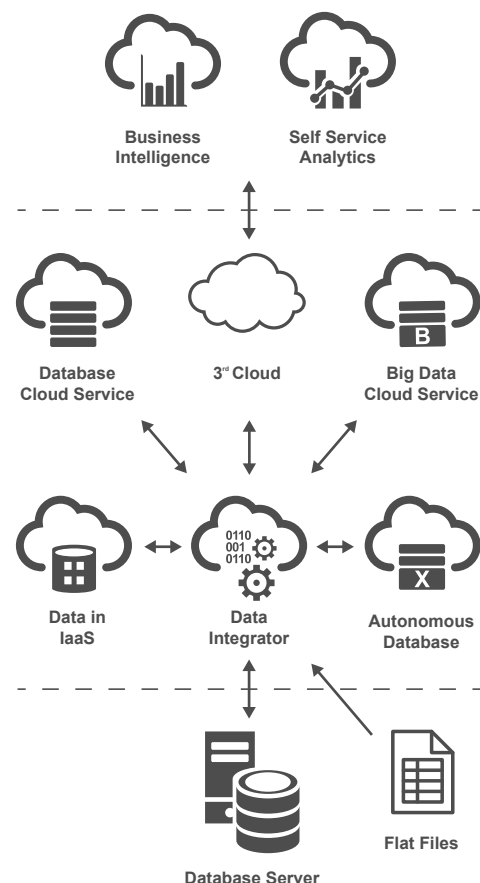

Advanced Reporting System

A reporting system allows companies today to monitor their business from the available data.

By implementing this pack you will have all advantages of a business analytics system in the cloud, facilitating your integration of large volumes of data and accurate and predictive analysis.

Pack steps

- Provisioning of ODI Marketplace in OCI.
- Architecture design (sources and targets connections) including Cloud Services.
- Development of 3 ELT processes.
- Provisioning Oracle Analytics Cloud.
- Connection of OAC to a source system.
- Development of 1 project with 4 reports.
- 2 training sessions for developers and administrators.
- Documentation of the provisioning and training.
- Optional maintenance and support.

Implementation

7-10 weeks
