

# CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

## PaaS for SaaS

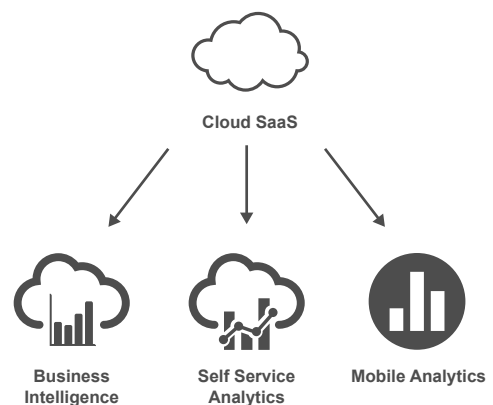

Complement the functionality of the SaaS services that you have (in any cloud) through the multiple services of Oracle Cloud PaaS. This will allow you to extend the functionality of these SaaS services, improve their connectivity, increase your security and analyze the data in greater depth.

# Analytics for SaaS

A comprehensive product for the cloud that covers all your business intelligence needs and at the same time supports a very high level of software customization. Easily connect everything you need for your business (ERP systems, CRM, SCM, vertical applications, etc.) from any device, anywhere, integrating your existing systems.

### Pack steps

- Architecture design including Cloud Services.
- Connection testing.
- Documentation.
- Optional maintenance and support.
- Creation of 2 reports after meeting with client.

Implementation

2-4 weeks
