

# CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

## Business Analytics

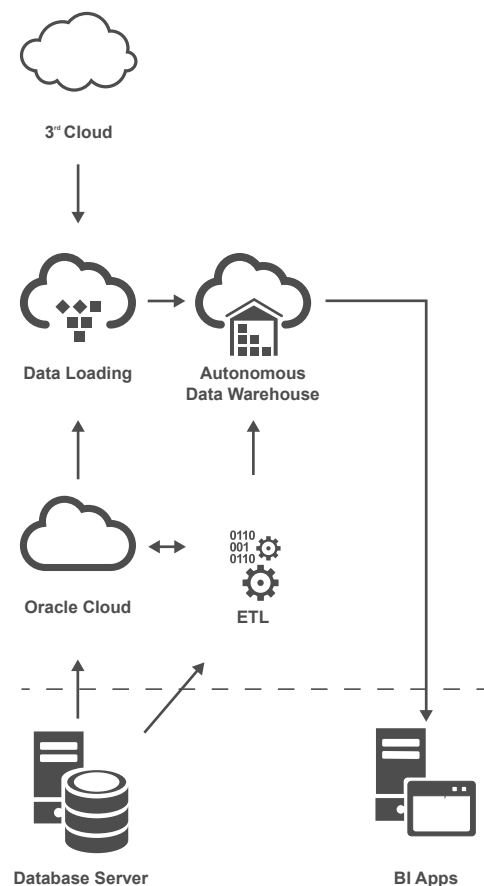

Mobilize your data into the cloud and combine it with other sources, whether On-premise or in other clouds, to get the most out of your information through easy, secure and scalable visual analytics.

# Autonomous Data Warehouse

Migrate your Data Mart quickly and transparently or start a new project under a high performance system based on Exadata. Manage your data in a fully autonomous and automated Data Warehouse that will allow you to focus on your business and save tuning and maintenance costs. Autonomous Data Warehouse Cloud (ADW) gives you the ability to scale your system instantly and without downtime.

### Pack steps

- Study of your needs for a correct sizing.
- Configuration of the Cloud component: ADW.
- Migration up to 1 Tb of data and 1 data warehouse schema.
- Connection of your BI Oracle tool.
- Optional connection to your non-Oracle BI tool.
- System testing.
- Knowledge transfer.

Implementation

3-5 weeks
