

CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

Custom Development

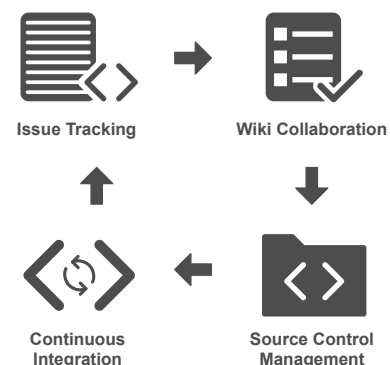

Easy, quick and streamlined implementation of any application in the public cloud, freeing workload from your data center. Deployment of legacy applications, J2EE and your backend with APIs, Node.js, PHP or Ruby. Your development team will be able to work in collaboration in a cloud-based environment and, through cloud developments, you will be able to complement your SaaS services.

CI/CD in Oracle Cloud

Using Visual Builder Studio, you will streamline team development processes and collaboration among members. In addition, you will automate the delivery of software without the need to integrate and configure different products. You can also easily manage the agile development lifecycle so you can focus on development.

Pack steps

- Oracle Cloud account configuration.
- Product configuration.
- Advanced Visual Builder Studio training.

Implementation

1 week
