

CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

IaaS

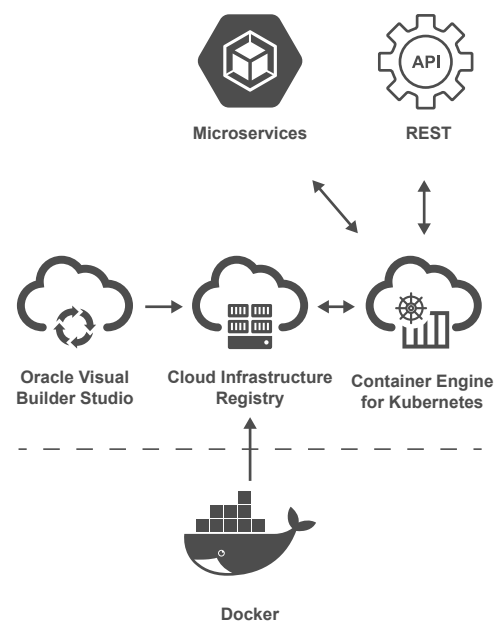

Deploy and execute any workload on the IaaS of Oracle Cloud, a business level, high-performance and cost-effective infrastructure, administered and supported by Oracle. It covers storage, nodes (bare metal, GPU and virtual machines), containers and cloud services aimed at improving communications with your data center.

Containers

Upload your dockerised applications to Oracle Registry (a private image registry service) and deploy them directly on Container Engine for Kubernetes, a managed service ideal for developers that allows the execution of highly available clusters with the control, security and performance offered by Oracle Cloud Infrastructure.

Pack steps

- Microservices review catalogue to select significant candidates.
- Provision of services on Oracle Cloud.
- Deployment of involved Microservices.
- Oracle Cloud Containers training.
- Oracle Cloud Registry training.

Implementation

3 weeks
