

CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

Database

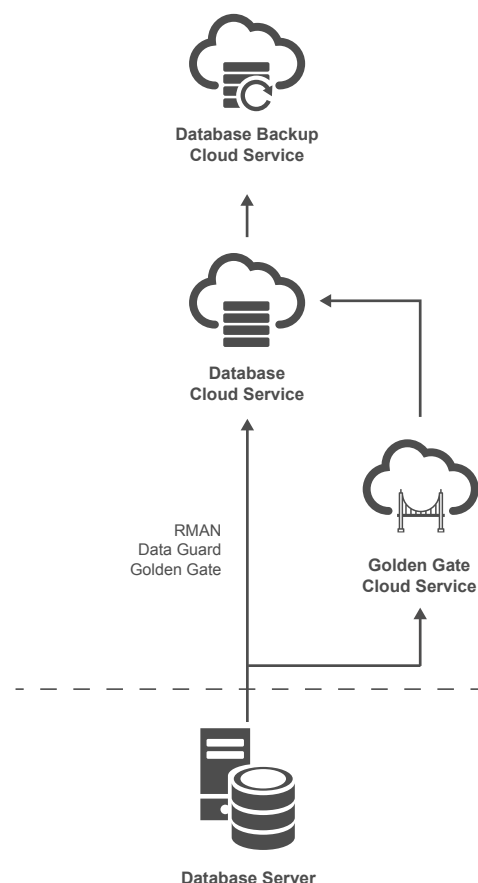

Enjoy a fully scalable, simple, flexible and highly available cloud database. Implement from small databases to high-performance needs. You can even opt for autonomously managed and automated databases, optimized for transactional or analytical environments.

Database migration to OCI

Move your On-premise services to the cloud, locating your data on Database Cloud Service. Enjoy a cloud-based environment optimized for the performance and availability of the Oracle database, with the options that you have if you use On-premise. Through Oracle Data Guard or Golden Gate you will achieve a minimal loss of service time because the data will be replicated in real time.

Pack steps

- Study of your current situation and needs, including required downtime.
- Provision and configuration of the Cloud service.
- Copy of your On-premise database to Cloud
- Connection of your application to the DB Cloud service.
- Integration tests.
- Knowledge transfer.
- Optional performance tests.

Implementation

1-3 weeks
