

# CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

## Database

Enjoy a fully scalable, simple, flexible and highly available cloud database. Implement from small databases to high-performance needs. You can even opt for autonomously managed and automated databases, optimized for transactional or analytical environments.

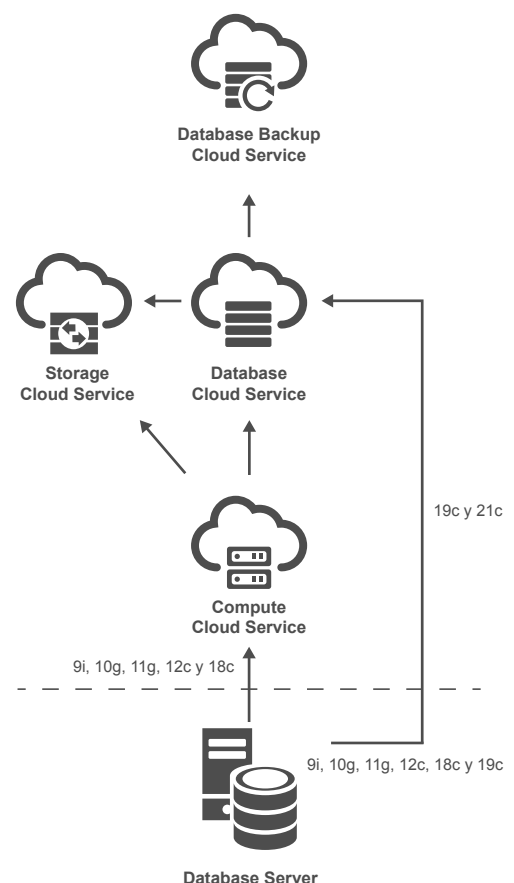

# Database upgrade to OCI

The Oracle Cloud provides you with the possibility of updating your database service without having to carry it out on new infrastructures. Try all the new features of the latest versions and gain immediate access to an optimized environment to execute the Oracle database.

You can use it for both the development environment of new versions of your product and for production environments. According to your needs we will use the most suitable updating mechanism.

### Pack steps

- Study of your current situation and needs.
- Provision and configuration of the Cloud service.
- Migration of your On-premise database to Cloud.
- Connection of your application to the DB Cloud service.
- Integration tests.
- Knowledge transfer.
- Optional performance tests.

Implementation

2-4 weeks
