

# CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.

## IaaS

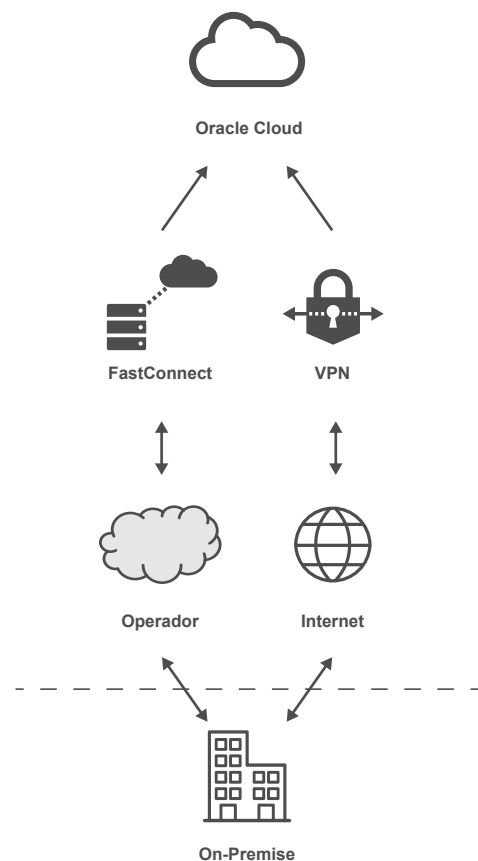

Deploy and execute any workload on the IaaS of Oracle Cloud, a business level, high-performance and cost-effective infrastructure, administered and supported by Oracle. It covers storage, nodes (bare metal, GPU and virtual machines), containers and cloud services aimed at improving communications with your data center.

# Improve Communications to the Cloud

Use of the Oracle cloud allows your business applications to be optimized, improving agility and reducing costs. However, it is important to bear in mind how your business connects to the cloud to obtain the performance, isolation and availability that best suit your needs.

### Pack steps

- Analysis of existing systems.
- Dimensioning of the communication solution.
- Provision of systems on OCI.
- Network and security settings.
- Connectivity tests.
- Knowledge transfer.

Implementation
