CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.
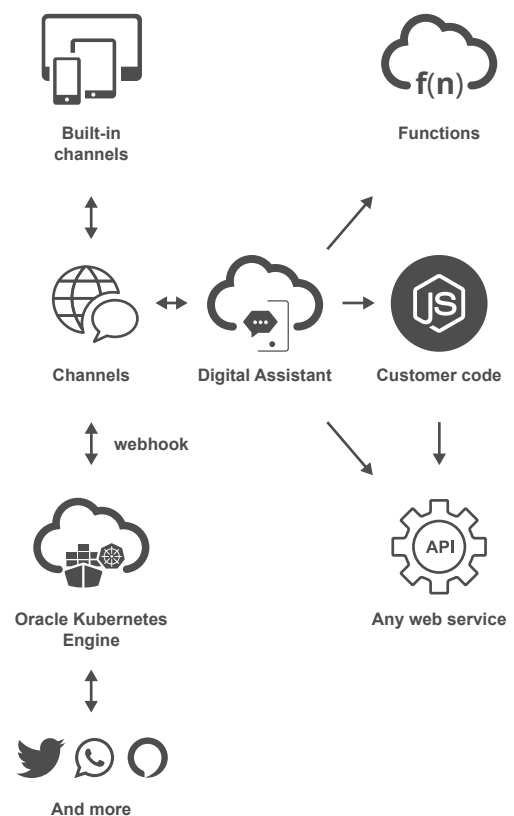

PaaS for SaaS

Complement the functionality of the SaaS services that you have (in any cloud) through the multiple services of Oracle Cloud PaaS. This will allow you to extend the functionality of these SaaS services, improve their connectivity, increase your security and analyze the data in greater depth.

Mobile & Chatbots for SaaS

In the last few years, messaging applications have become the most widely used applications by users of mobile devices. This new practice is a perfect opportunity to create a new communication channel with the client where, using Oracle's mobility business platform, we will be able to present operatives.

Pack steps

– CDX (Conversational Design Experience) workshop.

– Chatbot design documentation.

– 1 built-in channel, 1 language and up to 4 use cases.

– Optionally multi-language and multi-channel.

Built-in channels

Functions

Channels   **Digital Assistant**   **Customer code**

webhook

Oracle Kubernetes Engine   **Any web service**

API

And more

Implementation

4-6 weeks
