CGI Fly to Oracle Cloud

Packaged services for our clients to start their journey to Oracle Cloud in a fast and secure way. Solutions on hybrid architectures combining Oracle Infrastructure and Platform. Part of this portfolio is included in the Boost your cloud initiative, led by Oracle.
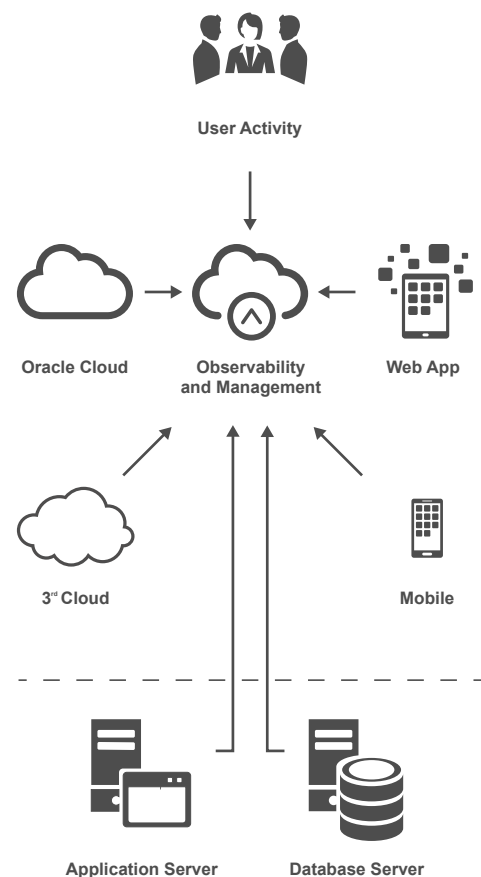

IaaS

Deploy and execute any workload on the IaaS of Oracle Cloud, a business level, high-performance and cost-effective infrastructure, administered and supported by Oracle. It covers storage, nodes (bare metal, GPU and virtual machines), containers and cloud services aimed at improving communications with your data center.

Observability and Management

Optimize your infrastructure, platform and applications, at the same time you reduce the incidents, problems and service losses to the minimum. Through Observability and Management Services you will have everything under control in a fast and simple way.

Pack steps

– Study and inventory of the topology to be monitored.

– Deployment and setup of agents.

– Setup of the monitoring entities.

– Creation of personalized dashboards.

– Setup and good practices guide.

– Training for support and administrators.

– Optional, maintenance and support.

User Activity

Oracle Cloud
